deshidratados naturales

OUR COMPANY

Our story begins in the Peruvian countryside, where fertile lands gift us with unique fruits and vegetables.

Since 2003, as a family-owned company, we have transformed native ingredients into healthy, high-quality foods for the most demanding markets worldwide.

Founded by Food Industry Engineers, Disebas combines tradition and innovation in a modern plant equipped with continuous-flow dehydrators, ensuring flavor, color, and nutrients are preserved.

At Disebas, we don’t just produce food — we bring health, trust, and sustainability from Peru’s fields to global tables.

Flavor, nutrition and sustainability in every product

- **Prepared to export certified quality products** to exigent markets such USA, Europe and Asia.
- **Dehydrating process in a continous-flow tunnel** with hot air and a **Spray dryer system** preserving the beneficts and flavor of fruits and vegetables.
- **Sustainability and internationalization of Superfoods made in Peru:** environmentally responsible production.
- **Packaging flexibility:** we adapt the format to the customer's needs
- **Certifications and authorizations:** FDA, Haccp Approved.
