

Cash Flow, Solved.

RTS International is a global trade finance company specializing in factoring, also known as “accounts receivable financing.” Factoring allows your company to access capital quickly while continuing to offer acceptable payment terms to your customers.

HOW FACTORING WORKS

After you perform work for your customer, RTS International advances you between 80% and 90% of the invoice value. Within 24 hours, we wire the cash to your account. After funding your invoice, we collect payment from your customer. Once the invoice is paid, we transfer the balance to you, minus our fees.

BENEFITS OF FACTORING WITH RTS INTERNATIONAL

- Immediately improve cash flow without borrowing
- Get paid in 24 hours instead of waiting several weeks
- Take advantage of our credit evaluation services
- We handle collections to ensure full payment on invoices
- The focus is on your customers' credit strength

CREDIT EVALUATION SERVICES

In addition to factoring, RTS International provides free credit evaluations for your portfolio of customers. This ongoing service keeps you informed of your customers' financial standing and reduces your risk of non-payment or bad debt.

COLLECTIONS SUPPORT

As a part of our factoring services, our account team monitors customer payments and provides professional and courteous collection support calls. This back-office service allows you to focus more time on other areas of your business.
