GROUND COFFEE

COFFEE WAS CONSIDERED A MYSTIC BREAD, SO THE ARABS REFUSED FOR NEAR 500 YEARS TO EXPORT FERTILE SEEDS TO THE WEST. IN THE 17TH CENTURY, ON A DARK NIGHT, BABA BUDAN TOOK THE FIRST SEEDS OF COFFEE AND EXTRACTED THEM OUT OF THE MECA, THE GRAINS ARRIVED IN INDIA RELEASING THE COFFEE TOWARDS EUROPE AND TO THE REST OF THE WORLD.

company established in 2017 in Medellín, Colombia.

We directly support small avocado producers, giving their crops an added value as anyone in Colombia has managed to do so before.

Our aim is to provide consumers with the highest quality possible in our products, accompanied always by the best flavors.

We are the first (and up to now the only) Colombian Manufacturers to export Avocado Oil and produce it in an industrial scale.

Aloe Vera

Polvo de Aloe Vera con Colágeno Hidrolizado

Social Responsibility

The basis with which it was born was the planting of alternative crops such as Aloe Vera for the economic diversification of the region of northern Antioquia, an idea that grew hand in hand with the formulation of our projects with which we benefit peasant families, mothers and young victims of armed conflict in Colombia. Thus supporting their economic and social environment. Currently our company is located in a ZOMAC (Zone Widely Affected by the Armed Conflict in Colombia), so our team and collaborators are natives or residents of this area.
