

### COMPANY PROFILE

**1STCHOICEFG** is a full scope project management provider offering services to clients at every level of business in all environments and across all vertical markets. Our primary focus is to become the “trusted advisor” to our clients in fulfilling their program or supply needs through coordinated vendor efforts, planning, educating, implementing, and executing a complete solution from end-to-end.

Through proven leadership, strategic planning, and subject-matter expertise, **1STCHOICEFG** consistently delivers intelligence-driven experience-based options, program decision assurance and targeted analysis to ensure security initiatives are on target and cost effective. **1STCHOICEFG** has the capabilities and capacity to step into the most complex situational projects already in process and develop innovative solutions that build lasting results.

With our international presence, **The Hawk Group, 1STCHOICEFG** offers global supply and security initiatives to our clients through the discovery, communication, design, development and implementation of programs, platforms and supplies that address the entire spectrum of concerns in the areas of defense, risk mitigation, strategic initiative planning, conflict and post-conflict management, capacity building, stabilization operations, programmatic methodology and policy making, tactical security and protective operations, physical and facility security, training, cyber security, border security, geospatial tracking and monitoring, biometric identification, drone technology, risk assessments and threat analysis/perception, crisis incident management, supply chain security and logistical support.

Together we can assist in a wide variety of follow-on professional services to include, but not limited to, hard-to-find product acquisitions, fiscal accountability, emergency response services, strategic communications, program engineering, infrastructure, and sustainability development through democratic policymaking.

### DIFFERENTIATORS

In the global security, supplies, and defense consultancy industry there exists a plethora of companies that claim to provide top tier personnel and services. However, it is our clients' ability to continue operations and function at their highest level in all environments due to the confidence and peace of mind instilled by **1STCHOICEFG** and **The Hawk Group** that truly distinguishes us from the competition.

We achieve these results not only through our array of offerings, but, more importantly, by combining:

- Experienced Diverse Global Leadership
- Focused Pro-active Relationships that Drive Critical Solutions
- Proven Implemented Methodologies
- Industry Specific Enterprise-wide Strategies
- Tier I Security Managers, Teams, and Products
- Intelligence Driven Security Operations
- Industry Leading International Partnerships
- Provide Integrated Military Support

Through utilization of **1STCHOICEFG**, **The Hawk Group**, and our world-wide partners, your organization will receive the multi-faceted benefit of access to top-level decision makers and Subject Matter Experts that leverage over a century of combined experience, exceptional skill sets, and substantial networks to develop programs and initiatives and to provide necessary products for defense, security, mitigation, and communication. These overall assets are unparalleled in the industry that we serve.

### METHODOLOGY

We bring together subject matter experts from various technical backgrounds to conduct assessments and provide consultancy and project management strategies to meet any challenge. This is accomplished through rigorous vetting of partnerships, evaluation, and critical testing that is the cornerstone of our methodology.

### CRITICAL ASSESSMENTS

We identify and prioritize the most critical assets (Supplies/Information/Data) to your organization. Our strategies are determined by the qualitative and quantitative impact to your organization if those assets are absent, lost, or compromised.

### THREAT ASSESSMENTS

Through a refined methodology and utilization of special resources, our team will determine what the greatest threats are to your personnel, property, and assets.

### PENETRATION TESTING

Our operations team will test the validity and reliability of current security tactics, techniques, procedures and systems to gauge effectiveness against current threats.

### POLICY, PLAN, and PROCEDURE REVIEW

We evaluate existing policy, plans and procedures to determine if they are adequate to detect, deter and defend against known threats to your personnel, property and assets.

### RISK ASSESSMENTS

Our team will provide a detailed Assessment Report highlighting our findings and recommending specific risk mitigation strategies, supplies and personnel to minimize potential threats or impacts to your operations and organization.
