The image features a close-up, high-angle shot of numerous green fern fronds. The leaves are densely packed, creating a complex, layered texture. The lighting is soft and diffused, highlighting the intricate details of the leaflets and the veins. The overall color palette is a range of greens, from deep forest greens to lighter, more vibrant hues where the light catches the leaves. Centered horizontally and slightly below the vertical midpoint, the word "SUSTAINABILITY" is written in a large, bold, white, sans-serif typeface. The text is sharp and stands out prominently against the darker, more textured background of the ferns.

**SUSTAINABILITY**

---

01

## OVER 170.000 OF NEW SEEDLINGS HAVE BEEN PLANTED

The sustainable work initiated 18 years ago. Since then, millions of seedlings have been planted bringing to life new trees and reforesting the area. Subsequently to this, all seeds are certified.

---

02

## SOIL CARE

The soil is protected by the Cupuaçu tree leaf, that fall all year long. With that it covers the soil, making a protective layer from the outside harm. It also helps with the microbial flora, soil quality and absorption.

---

03

## BRAZILIAN FAUNA

The planting of the fruits recover the florest, attracting birds and animals from the brazilian fauna that disappeared from the region. Also the Açaí seeds are reused to feed some animals.
