High performance car accessories

# About us

**Autotek** is a brand of automotive products designed for the aftermarket, the focus is to meet the needs of increasingly demanding consumers and seek differentiated products of higher quality, with the price within reach of their budgets.

At the same time, we set ourselves the challenge to create products more striking for people, with a high sense of innovation, creativity, design and high quality, combining excellent materials at the best price.

These values have become the basis of our business strategy, adding much more value to our distributors and consumers than other similar products.

Our value proposition has made Autotek a winning, powerful brand, which consumers immediately recognize, and which builds confidence from the moment they come into contact with any of our products available at the many point-of-sale displays in several countries.

Whenever we have the opportunity to talk to consumers in different places that are looking for Autotek products and confirm our recognition for the brand, the quality and the differentiation of our designs, are the ingredients that inspire us to continue creating solutions innovative.

We have two ISO 9001 certified production plants, strategically located distribution centers and a highly skilled and committed workforce, among research and development, design, management and marketing personnel who have resulted in an excellent line of products at a price Fair, within the reach of all.
