The Product for Your Business at The Best Price

## THE BEST PRICES OF THE WORLD MARKET

We guarantee our clients access to the best prices in the international market, either commodities or manufactured products.

### About

We are a team of professional experts in international business, shipping and trading.

We have a comprehensive experience in commodities and manufactured products, with competitive advantage of having one of the best suppliers' portfolios for a wide array of products and merchandise throughout the world.

Our goal is the expansion of operations and the full satisfaction of our customers, guaranteeing the development of a win-win relationship with them.

The challenge we accept and the commitment we assume is to provide our know-how for a comprehensive solution of the needs from the shipping point of origin to your destination.

## OUR DIFFERENTIAL

### ✓ A Wide Network of Suppliers

We have commercial agreements with several commodities producers for items such as: sugar, rice, soy oil, soy flour, chicken and pork, among others.

### ✓ Business Knowledge and Strategic Location

We speak your same language and we understand the challenges of Trading Services.

Thanks to our strategic location in Uruguay, we have access to preferential tax treatment to improve your business' bottomline.

## THE PRODUCT THAT YOUR BUSINESS NEEDS

Our extensive network of suppliers and agents assures that we will find the commodity or product that you want with the best quality available in the market.

### ✓ Our Client is Our Focus

The focus of our company is the customer. All consultations and preliminary steps are free, and are provided personally and directly. For All Global Trading, the customer is the heart of the organization.

## Services

### Purchasing Advice

Comprehensive advice is provided informing the steps and requirements that must be followed to accomplish the international trade regulations.

### Searching for the Required Product

Thanks to our extensive network of suppliers, we focus on finding the required product for your business, either commodities or manufactured products.

### Logistics Support

We handle shipping from any origin to the destination port that the customer selects.

### Intermediation Services

We provide an intermediation service for companies that are dedicated to the import / export of goods and / or services between different jurisdictions to channel all or part of their activity through our trading, taking advantage of the tax benefits of our location.
