

# **FIRE & RESCUE SERVICES**

Effectively Managing Risk and Resilience

# EFFECTIVELY MANAGING FIRE RISK AND RESILIENCE

Safety, risk mitigation and operational resilience are the primary objectives of managers of critical industrial and aviation operations. Reducing the risk of emergency situations by always being prepared, ready and able to respond instantly to any incident forms the core of G3 Systems' Fire & Rescue Services.

## **Skilled: Professional: Ready:**

Our skilled, experienced and fully qualified industrial and aviation fire officers and firefighters provide 24/7/365 fire & rescue emergency cover in some of the world's most difficult, hostile and austere environments.

## **Making your facilities and operations safer and more resilient**

The provision of industrial Rescue and Fire Fighting Services (RFFS) for high risk plants and operations around the globe is G3 Systems' specialty. We minimise risk and improve on-site safety, protecting your employees, visitors and facilities while enabling operations to continue in full compliance with fire and safety regulations.

- 24/7/365 Fire & Rescue cover for site operations
- Skilled, experienced and competent Fire Officers, Fire Fighters and Staff
- Enhanced resilience to on-site emergencies and incidents
- Firefighting and technical rescue
- Fire Inspection and Investigation
- Professional development and skills enhancement for all staff
- Quality assured training and competence management to internationally recognised standards
- Clear commitment to equality, diversity, staff welfare/ safety and environmental protection
- Affiliated to and/or accredited by NFPA/DIO/STANAG/ JOIFF/IFE/OPITO/IOSH and National Operational Standards
- Emergency Medical Services, staff, vehicles and equipment

**SKILLED    PROFESSIONAL    READY**

## Professional Aviation Fire & Rescue Services

G3 Systems provide Aviation Crash/Rescue & Fire Fighting (ARFF) services for both military air bases and civilian airports around the world. Our Aviation Fire & Rescue Services operate on air bases and airports handling aircraft and helicopters up to Category 10, in full compliance with ICAO regulations. We are NATO approved for global operations in hazardous areas.

- ARFF cover for all on-site air operations
- Firefighting and aircraft crash rescue
- Aircraft recovery assistance
- Affiliated to and/or accredited by NFPA/ICAO/DIO/STANAG/IFE standards and Airport Emergency Planning regulations
- Emergency Medical Services, staff, vehicles and equipment

## Responsive 24/7 Emergency Dispatch

G3 Systems can provide an effective 'around the clock' Emergency Dispatch Communications section as an integrated part of our Fire & Rescue Services. We also perform many ancillary functions; such as:

- Fire alarm monitoring and response
- Liaison with local fire departments, law enforcement and utilities
- Data and records management

## Effective Incident Command and Control

All G3 Systems Fire & Rescue Services officers are trained in Incident Command and Control to recognised international standards. Our incident commanders have the training, equipment and experience to effectively apply our incident command system to any emergency situation.

## Enhancing On-site Fire Safety

G3 Systems' Fire & Rescue Services can manage all on-site Fire Safety including:

- Fire risk assessments for each facility
- Appointing and training Fire Wardens to cover day to day fire risk management of required areas
- Training on-site staff in Fire Safety and Fire Extinguisher use
- Monthly inspections of Fire Safety equipment
- Coordinating and conducting fire/evacuation drills

## Maintaining and Managing Emergency Vehicles and Equipment

Procurement, management and maintenance of Emergency Vehicles and Equipment is a core element of G3 Systems' Fire & Rescue Services. We will also manage, maintain and repair emergency equipment and PPE. Self-Contained Breathing Apparatus, compressors, ladders, hoses and cutting gear are all regularly cleaned, checked and certified in line with the manufacturer's recommendations.

G3's Fire & Rescue Service also conducts Fire Extinguisher inspections, maintenance and repair to ensure that each site remains compliant with Fire Safety standards and protocols.

## Emergency Medical Services saving lives!

When time is critical and a fast response is essential, G3 Systems' Emergency Medical Service help save lives!

Providing rapid response paramedics and vehicles to critically ill patients and accident victims, our Emergency Medical Services deliver skilled trauma care, utilising the latest technologies and equipment to help people when they most need it. Our fully insured paramedics and emergency ambulance services are certified and compliant with international medical standards.

## Stay safe, reduce risk and lower your operating costs!

We can help improve your on-site safety and emergency response ensuring full regulatory compliance, effectively managing your risk and all within your budget.
