Policy as code

- DATA SCIENCE
- BIG DATA
- ENTERPRISE DATA WAREHOUSING
- BUSINESS INTELLIGENCE
- DATA INTEGRATION & PROCESSING
- MACHINE LEARNING
- STREAM PROCESSING
- DATABASES: SQL SERVER, ORACLE, TERADATA, MYSQL, POSTGRES, NON-RELATIONAL, MONGO, DYNAMO.
- ANALYTICS: TABLEAU, QLIK, POWERBI, SAS, MICROSTRATEGY, ETL.
- FRAMEWORKS: HADOOP, SPARK, TENSORFLOW, KERAS.

# COMPETITIVE ADVANTAGES

Successfully delivering solutions on time and within budget:

- Average Customer Satisfaction: 9
- NPS: 72

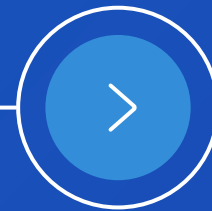

High quality, multi-skilled team.

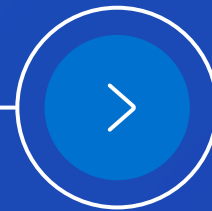

Cross-industry experience:

- Start-ups
- Telecom
- Fintech
- Technology
- Logistics
- Health
- Energy

Near-shore model:

Nearshoring our services makes us cost effective.

Time-zone and Cultural alignment with U.S. customers.

# WHAT OUR CLIENTS SAY

**Mike D. Kail**  
CEO

3XM is the best software development outsourcing company I've worked with. The high quality and velocity of their software development and devops is changing our company for the better. Additionally, their creativity and self initiative are adding value in ways not seen from previous outsourcing companies we've worked with.

**Rodney Pritchett**  
Director  
of Professional  
Services

I use 3XM Group to meet my client's needs because they are the best in the business. We are a Bain Capital-funded, global company serving world-class customers, including Comcast, Verizon and British Telecom. 3XM Group are leading data scientists, who excel equally at data analytics and integration and infrastructure, virtualization and networking technology such as Cisco, Juniper and Arisco. In short, their work produces tremendous value for our clients.

**US Office:** 75 E Santa Clara St. - San José, CA 95113.

**Development Center:** Humberto Primo 680, First Floor, S13 Office,  
Suquia Building, Capitalinas Towers - Córdoba, Argentina
