Biomass Pellets

We, 73 Deals, have gained eminence in our sector as a licensed and well-renowned exporter of Fuel Pellets. Our offerings include Wood Pellets, Wood Briquettes, fuel Pellets, and others. Our excellence in offering quality-rich Pellets and Briquettes has catapulted us among industry-leading names engaged in offering Fuel Pellets. We are engaged in supplying Briquetting solutions of various types to many prominent Industrial and Private Consumers today.

Advantages of Biomass Pellets

- Ease of handling & storage due to its size and as it can be packed in bags thereby reducing labor costs in handling, sorting & breaking.
- Clean to handle and keeps the surrounding environment clean.
- Availability of the fuel is better as it is usually produced near the consumption center, reducing the cost of storage and space.
- Cheaper than coal as it utilizes wastes and residues usually disposed of at NO or LOW cost.
- Automatic feeding in the boiler is possible
- Boiler efficiency increases because for pellet manufacturing raw material must be ground which in turn increases the surface area for combustion in the boiler thus attaining maximum combustion of pellet and lesser unburnt particles.

Animal Feed

Good animal feeding plays a vital role in animal health & welfare and in the production of safe and quality products of animal origin. Modern feeds are produced by carefully selecting and blending ingredients to provide highly nutritional diets that both maintain the health of the animals and increase the quality of such end products as meat, milk, or eggs. Animals in general require the same nutrients as humans. The most important feed grains are as follows:

- Maize
- Soybean
- Rice DDGS
- Corn DDGS
- Corn Gluten
- Rice Gluten

Spices

Spices are one of the most important ingredients in Indian dishes. Indian Spices have been popular across the world for their unique flavor, aroma, and beautiful texture. Thus, the export of spices from India has increased substantially. We, at 73 Deals, believe that Indian culture and our unique spices in India should reach each corner of the world. 73 Deals is one of the leading export companies for the export of Indian spices. We, being whole spice exporters, export numerous spices including turmeric, ginger, Star anise, Cinnamon, Asafoetida, Nutmeg, cumin, black pepper, and many more.

Blended Spices

The most frequently used spices in your kitchen are the best blends. To spice up everything from your morning cuppa to a delicious dinner. Mixed evenly so you don't have to worry about that when it comes to your seasonings.

Leaves Spices

some come from woody plants, such as bay leaves. Basil, rosemary, and parsley are often found in kitchen spice racks but don't really qualify as herbs because they have aromatic leaves.

Seeds Spices

We are exporting different types of spices like cumin, red chilli, turmeric, coriander, and in oilseeds, we export sesame seeds. We source all the ingredients to make the origin of the products. we can pack according to the customer

Vegetables

Fresh Vegetables

We are one of the foremost Fresh Vegetables Exporters from India. Our range of Fresh Vegetables encompasses Fresh Lady Finger, Fresh Cabbage, Fresh Capsicum, Fresh Green Bean, Fresh Onion, Fresh Ridge Gourd, Fresh Snake Gourd, Fresh Cluster Beans and Fresh Tomato.

Organic Vegetables

All our products are fully certified organic, grown according to international standards, and packed in compostable and renewable packaging materials.

Dehydrated Vegetables

Dehydrated Vegetables are vegetables from which moisture content has been removed. The water content from these vegetables is removed by some special drying methods. Sun drying is one of the oldest methods used for dehydration. Dehydrated Vegetables are used in instant noodles, soups, snacks, fast food and such other products.

Medical Supplies

73 Deals is one of the most reputed Disposable Medical Suppliers in India. We are providing quality products and the best of services.

No doubt, life is precious. Not only do our products conform to ISO 9001:2015, ISO 13485:2016, and CE standards, but we also constantly exceed international quality norms. We boast of the most modern factories which have the state of the art manufacturing facilities. Also, rigorous quality assurance resources ensure stricter quality control.
