BENEFITS

Integrity.- We conduct ourselves with integrity in both our internal management and our relationships with third parties, based on principles of respect and fairness.

Professionalism.- We strongly believe in the value of professionalism for the execution of our work. Academic knowledge, professional updating, planning, risk management, quality assurance, among others, are tools we use daily in the management of our businesses.

Teamwork.- We understand that the complementation of capabilities, skills, ideas, and resources among different parties produces better results than each of them individually.

Experience.- We have more than 20 years of experience in the Information Technology industry at National and International levels. We have successfully completed projects with prominent customers. Our team is highly qualified and certified in key technologies

Tailored Solutions Personalized approach for each client

Detailed analysis of requirements and objectives

Commitment to excellence - Excellence in every interaction.

Continuous improvement process and satisfaction guarantee.

Constant feedback to ensure maximum customer satisfaction.

Enfoque en Resultados Tangible and measurable results.

Focus on achieving concrete results for your business.

QUOTES

*"....Capgemini began working with Adraco in 2018, and they have been a **strategic partner for our business**, always aligned with our processes and compliance. **The difference from other suppliers is the quality and agility with which they propose and assign each resource.**"*

The Communication between both companies was established from the beginning as a support and teamwork.

We always work hand in hand with ADRACO, they are concerned about meeting the objectives we bring with the rest of the clients. With the changes that arose in 2021 due to the Outsourcing law, they were one of the first and main providers to propose our strategies to the program at Capgemini..."

QUOTES

"...At Concentrix Catalyst, we have had the opportunity to work with different consulting firms. Most of them have good consultants, but none come close to the level of follow-up, control, and quality that Adraco Solutions provides. In this regard, Adraco sets itself apart from its competitors by offering us, as clients, not only the right consultants for the positions we have but also the overall service chain, including their internal administrative policies. Finally, Concentrix Catalyst's corporate office knows that for any external recruitment needs, Adraco Solutions is definitely our first firm to consider."

QUOTES

"...Adraco has been a partner of Neoris for many years, and on every occasion, we have had the prioritization and attention to detail necessary for this industry. The ADRACO team has never failed to send us all the information we require from each consultant, always ensuring that we have good follow-up to our processes and attention to every detail necessary to ensure a successful process."

US & India Recruitment Leader
NEORIS

QUOTES

".... Adraco team represents among the highest levels of customer service I have experienced, they are a fantastic organization!"

Great customer support, they always go the extra mile at every stage we had in our processes, I felt they had our interests at heart and found the best talent for us at excellent rates.

The attention to detail provided by Gaby Sandoval was impressive and her customer service skills are outstanding, she is a fine ambassador for the company..."
