Zhejiang Airsun Commodity Co., Ltd.

Toothpaste manufacturing and OEM / ODM oral care

Yiwu, Zhejiang, China

About Airsun

Oral care manufacturing in Yiwu, China

Established in 2006, Zhejiang Airsun Commodity Co., Ltd. manufactures oral care products in Yiwu, Zhejiang, China.

We work with importers, distributors and brand owners through customer-brand manufacturing and the supply of Airsun-owned brands.

In-house formulation and quality teams support product development and production. Factory visits are available by appointment.

2006

Company established

National

High-Tech Enterprise

Recognised in China

Manufacturing & quality

From formulation work to production and inspection

Coordinated in-house teams

Our formulation and quality teams support development, product inspection and manufacturing at the Yiwu production base.

Raw materials, packaging components and finished goods are managed by batch and status. Factory visits and customer audits can be arranged around your review priorities.

OEM & ODM

Product development for your brand

01

Your brief

Share the product category, target market, formula or specification requirements, packaging, quantity per SKU and intended launch timing.

02

Project assessment

We assess feasibility and prepare an initial quotation, identifying the formulation and packaging details that need development.

03

Samples & specifications

Review samples and packaging, provide feedback and confirm the agreed specifications before the final quotation and production arrangements.

04

Production & delivery

Following order confirmation and the agreed deposit, procurement and production are scheduled. Inspection and delivery follow project terms.

Price available upon request

Custom quotations depend on formulation, fill weight or volume, packaging and order quantity. Project-specific minimums and lead times are confirmed with your quotation.

Toothpaste range

59 products for your selection

Product details at a glance

Each product entry shows its SKU, net content and retail packaging. Flavour and fluoride information appear where confirmed in the product records.

Standard order information

Minimum order	30,000 units per SKU
Shelf life	4 years
Pricing	Price available upon request

Availability, production dates, remaining shelf life and delivery arrangements are confirmed for the selected SKU. Existing products and custom development projects are quoted separately.

Use the SKU index at the end of this catalogue to find a product and include its code in your enquiry.

Custom development for your product range

01 Mouthwash

Discuss formulation, flavour, fill volume and bottle or label requirements. Development starts with your target market and a defined product brief.

02 Manual toothbrushes

Define bristle and handle specifications, colours and retail packaging. Share your intended users and reference samples for product feasibility assessment.

03 Dental floss & floss picks

Explore rolled dental floss and floss-pick formats. Discuss thread specifications, product design, pack count and packaging, with feasibility confirmed for each project.

Product specifications, packaging options and order requirements are agreed for each custom project.
