

FOR A LIFE FREE OF ALLERGIES
AND FULL OF WELLNESS

Alergoshop was the first company in Brazil to meet the necessities of allergic people. The idea came up in 1993, based in one of its owners' personal needs, who joined her sister and envisioned this new market.

To meet this so demanding market's needs, Alergoshop expertized in the development of products that follow strict standards regarding their components and efficiency.

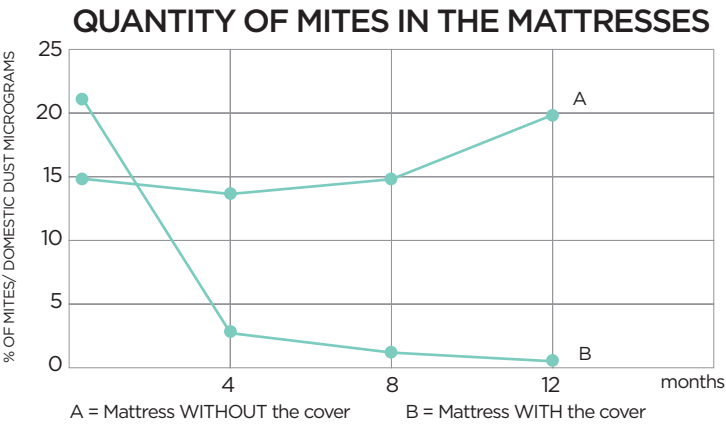

There are many lines, starting from cosmetics and make ups to household. Nowadays Alergoshop is synonym of branded products that concerns about your family's health.

ANTI-MITE COVERS

Alergoshop's anti-mite covers, besides being hygienic; they are great allies in preventing respiratory allergies, because **they block the mites's passages**, fungi, excrements and other micro-organisms to the pillow's and mattress' surface blocking people's exposure to them.

The covers also conserve the lifespan of the **mattress** and **pillow**.

SUPER SOFT - ALERGOSHOP EXCLUSIVITY

HIGHLIGHT:

- 100% cotton 180 threads count;
- Exclusive polymer membrane;
- Anti-mite treatment in every wire;
