GUCHEN INDUSTRY INTRODUCTION:

Guchen Industry is one of the first Chinese companies to produce [air conditioning systems for commercial vehicles](#). Initially, they only manufactured [air conditioning systems for buses](#) but later expanded their business by manufacturing refrigeration units for trucks and vans. Guchen Industry, manufacturer of Climate Control Systems for buses and coaches used in the transportation of people in: school, transit and commercial markets.

Looking for a wide range of high-quality bus air conditioning systems with affordable prices? Built for every bus type - from coach bus, electric bus to big, custom buses and everything in between, Guchen has a variety of rooftop bus air conditioner to fit your needs. A new bus air-conditioning system helps maximize thermal comfort and the panoramic rear lounge has been enhanced to give a feeling of increased space

GUCHEN INDUSTRY HISTORY:

Entrepreneur Junsheng Gao formed Guchen Industry Co.,Ltd in 1997. At the first year GUCHEN was established, Junsheng Gao introduced the Zexel (now called Valeo) DKS-32 compressors and [Bock FK 40 series compressors](#) to China market.

In 2000, GUCHEN, as the OEM supplier of Bus AC Systems for Yutong Bus, King-Long bus and Yaxing Bus, was super active in the bus industry of China Mainland. Then, GUCHEN begun to do exporting business and it has exported bus air conditioners to countries like India, South Africa, Egypt and Turkey until 2003. In 2005, GUCHEN expanded its business to Colombia, and earned a great reputation there.
