# OUR SERVICES

Grupo Serrano offers international logistics services in order to attend the complete supply chain, as detailed below:

## Air Transport for Import and Export Cargoes

Cargo can be transported either by specific aircraft or in the holds of passenger aircraft – this is done in national and international transport of products.

## Maritime Transportation of Import and Export Cargoes (LCL e FCL)

Our team is available to present solutions that contribute to your maritime transport. Our extensive knowledge of the market and experience in the modal provides the movement of the most diversified demands.

## Customs Clearance for Import and Export Cargoes

Does your company need to carry out the best customs clearance procedure to bring the best quality to your goods import operations? Contact us!

## International Cargo Insurance

International Cargo Insurance is a protection mechanism that can be contracted by the exporter or the importer. The main purpose of international cargo insurance is to protect buyer and seller against damage caused by accidents with the cargo.

## Agency and Trading Service for the sale and purchase of products for import and export

We are a company specialized in taking care of bureaucratic import procedures. We plan each step of the import process, from the document issuance by the exporter to customs clearance in Brazil.

## Foreign Trade Consultancy

Our goal is to help companies carry out imports and exports in an agile way, without having problems with bureaucracy. Talk to us and learn more about this service.

## Specialists in Verification of International Suppliers and buyers both in Brazilian territory and at a Global Level

We have a highly qualified and well-prepared team to verify international suppliers and buyers. Our team works both nationally and internationally. Make us an inquiry.
