

Ashton Global Investment Management

World's Leading Emerging Manager Platform

Kijana A. Mack | Senior Managing Director | kmack@ashtonglobal.com

Changing the Face of Wall Street

Ashton Global is an emerging manager platform for institutional investors, family offices, and hedge funds.

Our goal is to match world-class managers that are capable of generating sustainable alpha, with investors looking for niche and uncorrelated investment strategies.

The Diversity Problem on Wall Street

Why Does Wall Street Face Challenges With Diversity?

Women asset managers make up roughly 10 percent of the asset management industry but manage only 0.8% of AUM. Minorities represent 9 percent of the total firms, but they manage less than 0.4% of total industry AUM.

Ashton Global Bridges the Gap

Manager Mentoring

Capital Introductions

Emerging Manager Programs

Seed Capital Transactions

How We Create Value
