

About Us

Asunción Export was born, back in 1997, as a producer, processor and exporter of fresh fruits and vegetables. Our specialization is Mangetout (Snow Peas) and Sugar Snap Peas. Our farms are spread throughout Guatemalan high lands in order to diversify the environmental risks at altitudes ranging from 1700 to 2400 meters above sea level

Our packing house “La Asunción” employs more than 300 people at our facilities, located 30 minutes away from Guatemala City International Airport. In our farms in Guatemalan highlands, more than 1800 producers work the fields daily, to deliver high quality and fresh Mangetout and Sugar Snaps to our packing house.

Mission

To produce and export low risk, secure, safe and legal agricultural goods. Working with responsibility during production, manipulation and exportation, so that we can supply suitable products, applying always continuous improvement to our procedures in order to reach sustainability.

Vision

Consolidate us as a leading national and regional agro-export company, ensuring production and our client's satisfaction through the supply of low risk, secure, safe and legal agricultural products, without neglecting our providers and collaborators satisfaction. All of this through an embedded system of avant-garde quality, environmental, safe and security, social and business responsibility policies.

Our production window goes from early November to early May, when we supply supermarkets in the European Union and UK.

Production Origin

Our farms are located in Guatemalan highlands in Chimaltenango, Sololá and Huehuetenango departments

Our Certifications

Our strong pledge to safe and sustainable agriculture practices, had made our fields Global GAP certified every year since 2002.

Our responsibility and commitment to consistent food safety and quality lead us in 2008, to make “La Asunción”, our packing house, to be recognized as the first Latin American packing house to be accredited as BRC 5.0 (British Retail Consortium) and we have been re-certified in the subsequent BRC standards every year since then with Grade A.

Since 2013 our packing house and all our farms are “For Life” certified, as a reminder that all our operations have to be driven with Respect to the: human rights, fair working conditions, ecosystem and promotion of biodiversity, sustainable agriculture practices and betterment of the local impact.

Our constant search for continuous improvement and the certainty that good agricultural practices, food safety, quality and social responsibility are our own Organizational Culture, has allowed us to remain certified in these standards up till date.

Our People

Our packing house employs over 300 collaborators. Each of them is part of a career's development program. With this program we aim to improve his/her skills, productivity and living conditions.

As a result, we count with a highly committed, dedicated and specialized work force that guarantees that our Sugar Snap Peas and Mangetout (Snow Peas) fulfill our clients requirements at every level.

Together with more than 1800 families at our Production Centers, we work daily to deliver low risk, secure, safe and legal products to all our consumers in Europe.

Our Commitment with CSR

In Guatemala, the snow peas and sugar snaps are grown in rural areas with many challenges regarding the living and working conditions. Our company is “For Life” certified since 2013. This means that every year the working conditions, health and safety conditions, community involvement and environmental care are checked at Asunción’s Packing House and fields.

We work with the approach of social responsibility and we take care that all our workers get, at least, minimum wages and more social benefits than established by the law. We maintain cordial, transparent and respectful relations with, both, our workers and producers.

We are highly aware that our operation has an impact on the nearby communities, so we are constantly supporting education, healthcare and recreation. We are always willing to make substantial changes when it comes to improve the living conditions of our workers and producers.
