Who are we?

With over 30 years of experience leading the industry, we are a Colombian company internationally recognized for creating high-quality advertising and recreational inflatables. Our highly skilled team designs innovative, customized solutions that captivate attention and elevate your brand's value. If you're looking to make an impact with creativity and effectiveness, we are your best ally!

Vision

We design and produce advertising and recreational inflatables that exceed expectations. We provide creative and effective solutions to elevate brands and events, ensuring the highest quality standards and a service that guarantees customer satisfaction and loyalty.

Mision

We aspire to be international leaders in advertising and recreational inflatables, recognized for our innovation, quality, and commitment to our customers. Our goal is to expand globally through new partnerships and products that redefine the advertising and entertainment industry.

Arches and balloons

Bottles, Cans, Jars, and Water Jugs

Stands and Tents

Recreational Inflatables

Static Displays, Attention Grabbers, and Figures

Tunnels and Special Inflatables

Balloon and Totems

Bags and Air Mattresses

Features

FABRIC: Our fabric is one of the best in the inflatable market. We use Fayette, which is waterproof, tear-resistant, and highly durable under tension.

PRINTING TECHNIQUE: Our printing technique is digital with solvent ink, using high-adhesion Camperink fabric at 1,400 DPI. For outdoor use, we utilize high-fixation fabric (Lafsol) with UV protection to ensure durability and vibrant colors.

CANVAS: Our canvas is 700 anti-fungal, designed for flooring, resistant to abrasion and tearing, and reinforced for added durability.

CORDS: We use a specialized system to secure the inflatable at specific points and ensure stability.

ANCHORING: Our anchoring system uses rods to provide a secure and reliable hold.

MOTOR: We offer two options:

- Internal motor: 3,500 RPM, 110V
- External motor: ½ HP to 1HP

LIGHTING: We provide internal and external lighting options upon customer request.

CARRYING CASE: The carrying case includes markings, handling and care instructions, and repair patches for added convenience and maintenance.

WARRANTY: We offer a 1-year warranty for manufacturing defects.
