

Fruvin Trade

More than an exporting company, we are the ideal ally for your company, we achieve this by establishing a link between Colombian producers and your company's clients. We are not a company interested only in trading, we seek sustainable and lasting business ties with companies that like you and us strive to do better every day.

Why do we do it?

We believe in a world of opportunity, where we can all trade together.

How?

We do it by being practical and reliable, offering to be a sustainable ally.

What?

Fruvin Trade makes it possible. We export the best fruits from Colombia based on quality and price. Let's do business!

ATTRIBUTES

Quality

We have 3 products that meet international standards, growers have an export registry and management of good agricultural practices certified by the Colombian government through the competent bodies. The Hass avocado is certified for entry into Central America and Europe. The diamond yam is the result of an articulated work of international organizations that allows the export of a quality product. The Tahiti lemon is a fruit with the best quality, grown and packed in certified plants.

Responsibility

Doing business today represents great trust between the parties, added to quality, we represent responsibility. We know the importance of your business and that is why we offer you the best products with the peace of mind of knowing that the best of the Colombian countryside will arrive at your destination in the agreed times and with the required specifications.

Agility

When doing business, promptness is required in the processes and that is why we design and operate an alternative business model that allows reducing logistics and operation times so that the customer receives their product in the shortest possible time.

LOCATION

We are located in Barranquilla Colombia, an industrial and port city. It is the capital of the Colombian Caribbean, with a privileged and strategic geographical position. It is located 60 minutes from Cartagena and Santa Marta, neighboring cities that have a great maritime connection and experience to make the shipment of your merchandise safe and reliable.

HASS AVOCADO

It is grown in ideal climatic conditions, we have the accompaniment of experts, to then be taken in a certified plant and later sent to any country in the world.

The best Hass avocado in Colombia is packed in baskets for proper conservation and care of the fruit.

The selection is of high technology, has traceability and special monitoring of the process.
