INKA MIKHUNA

FRESH GINGER

FEATURES

Peruvian ginger is a high-quality product compared to ginger from other countries due to its superior organoleptic characteristics and higher gingerol content, thanks to the fact that the fields where it is grown have higher levels of nutrients.

PRESENTATION

Boxes of 10lb, 12lb, or 30lb. We also accept orders according to the customer's requirements. We have fresh Ginger since May to Jun. 2 containers weekly.

INKA MIKHUNA

GINGER POWDER

MARKET APPLICATIONS

- Food industry: flavor enhancers, beverages, and infusions.
- Pharmaceutical Industry: Ginger, enriched with secondary metabolites like gingerols and gingerdiones, manifests stimulant, carminative, and antifatulent attributes. Its expectorant quality aids respiratory health, while cardiotoxic and anticoagulant effects suggest cardiovascular potential. Ginger's antiemetic prowess addresses nausea, and its immune-stimulating properties contribute to overall health benefits.
