# Bata Manga Larga

## Descripción

- Tela no tejida en polipropileno 30g ± 2g SMS.
- Producto desechable.
- No estéril Ideales para procesos en los que se requiera máxima protección contra fluidos.
- Aislante de líquidos.
- Alta transpirabilidad.

**Presentación:** Bolsa por 1 unidad.

# Vestido de Aislamiento

## Descripción:

Cuerpo de Traje: Elaborado tela no tejida gramaje 70 100% polipropileno.

Elástico de sujeción: Elaborada en tela 100% poliéster.

Cierre: Elaborado en nailon sobre poliéster trenzado.

## Especificaciones Técnicas

- Cierre: 70m cm
- Elásticos: Puño: 16 cm cada uno
- Bota: 28 cm cada una.
- Capucha: 40 cm.
- Cintura espalda: 38 cm.

# Gorro Tipo Oruga

## Descripción:

- Gorros desechables fabricados en polipropileno (tejido sin tejer).
- Cómodos, resistentes y transpirables.
- Adaptables a la cabeza mediante goma elástica.

**Color:** Azul claro.

**Medidas:** 600 mm.

## PolainasVisorde PantallaCubreZapatosProtectora

### Descripción

El protector facial tipo careta, ofrece una muy baja resistencia a la respiración lo que lo hace muy eficiente en largas jornadas .  
Fabricado en su estructura con Poliestireno corrugado calibre 60  
Se define técnicamente como: material plástico celular rígido  
Fabricado a partir de una estructura celular cerrada y liviana;  
Buena resistencia al impacto, buena resistencia a la temperatura  
Ideal para aplicaciones que requieren esterilización.

- A prueba de salpicaduras
- Estructura adaptable
- Diseño Ergonómico
- Reutilizable
- Limpie, desinfecte y reutilice

# Gafas de Seguridad

## Descripción

Lentes livianos y resistentes, su dueño permite gran visibilidad y cobertura con un ajuste perfecto para brindar la máxima protección.

## Especificaciones Técnicas:

- Anti empañó
- Anti rayadura
- Anti impacto
- Capa de filtro UV de 99.9%
- Patillas de silicona

# Tapabocas

## Descripción

Hipoalergénica, repelente de líquidos, resistente a las rupturas, confortable, biodegradable, no toxico.

## Especificaciones Técnicas:

- Fabricado en polipropileno, libre de látex.
- Triple capa o estéril, la capa de contacto con la piel es de tela Spun de 27 a 30g.
- La capa intermedia es Metblown de 18 a 20g (medio filtrante).
- La capa externa es de tela Spun de 15 a 17g.
- Resistente al paso de líquidos con 3 pliegues.

# Tapabocas KN95

## Descripción

### Espirador KN95

- Mascarilla facial de seguridad FFP2 95% de filtración.
- Diseño con 5 capas de filtración reforzada.
- Alta capacidad de filtración creando un sello seguro.
- Clip nasal ajustable.
- Diseño 3D para mayor comodidad y mejor ajuste.
- Se ajusta a cualquier tipo de rostro, Color Blanco con correas elásticas, la máscara de seguridad KN95 crea un sello seguro para máxima protección.

## Certificado EN

- Norma nacional: GB 2626-2006.
- Norma europea: EN 149: 2001 + A1: 2009.
- FDA-CE

# Guantes de Vinilo

## Descripción

- Sin talco, Libre de látex
- Ambidiestros. No estériles
- Ideales para limpieza en general, industria de alimentos, industria flexográfica.

**Presentación:** Caja por 100 guantes

# Bolsa Guantes Cadáveres de Nitrilo

## Descripción

- Bolsa Libre plástica del látex fabricadas. en polietileno de baja densidad , polietileno lineal Libre y/o de pigmento talco..
- Resistencia Gransensibilidad al agua táctil. y agarre.
- Temperatura Resistentes a la selladura. 380 - 400 ° C .
- La película sella al calor con facilidad y sus sellos son resistentes y
- Prelástico sellado:** Sobre estéril par
- Unidad Capacidad mínima aproximada de venta 50 de pares 120 kilos.

**Medidas :** 100 X 210 cm X 150 MICRAS

# Gel Antibacterial

## Descripción

Es un producto especialmente diseñado para la desinfección rápida de las manos en procesos máximos de higiene y asepsia sin necesidad de enjuagar y dándole suavidad a las manos.

## Manejo y Aplicación

En todo tipo de trabajo donde se requiere una rápida desinfección de la piel. Laboratorios, guarderías, baños públicos. Industria alimenticia, hoteles, restaurantes. No reseca las manos por sus ingredientes en la formula. Previene enfermedades infecciosas.

# Termómetro

## Descripción

- Tecnología infrarroja que permite tomar la temperatura sin contacto, con pantalla LED.
- Toma la temperatura en menos de dos segundos.
- Puede almacenar el histórico para comparar y llevar control.
- Apagado automático para ahorro de energía

# Kits de Prueba de Covid-19

## Descripción

- Applied Biosystems® real 7500/7500 y BIO-RAD CFX96.
- Pipetas (1- 20 µL, 20-200 µL, 200-1,000 µL).
- Puntas de pipetas con barrera de aerosol (RNasa, sin DNasa).
- Guantes sin polvo (desechables).
- Mezclador Vortex o equivalente - tubo de 1,5 ml.
- Tubo de PCR o placa de 96 pocillos.
- Microcentrífuga de banco.

## Dräger Evita® Infinity® V500 ventilator

### ICU Ventilation and Respiratory Monitoring

Combine fully-featured, high-performance ventilation with Infinity® Acute Care System™ integration to meet the challenges of today's health care environment.

#### Infinity® ID-Accessories

Each and every Infinity® ID-accessory has been designed to offer additional functionality, which can help you simplify routine tasks, streamline workflow and increase safety levels.

## EVITA ® V300 ICU Ventilation and Respiratory Monitoring

The Evita<sup>®</sup> V300 is a scalable and versatile device which offers high ventilation quality. To meet and master the changing conditions and challenges of your everyday hospital work you need flexible equipment with versatile opportunities.

### Dräger Carina<sup>®</sup>

Designed for non-invasive ventilation: With its unique SyncPlus<sup>®</sup> technology and an extended NIV function, the user-friendly

Dräger Carina<sup>®</sup> offers reliable and easy ventilation – and thanks to its compact design, this also applies when transporting patients.

## ICU ventilator

Neonate, infant and adult with 12" TFT touch screen

### PM- R50

### ***SPECIFICATIONS***

Application: Neonate, pediatric and adult

12.1" TFT touch screen

Ventilation modes: VCV, PCV, SIMV-VC + PSV, SIMV-PC +

PSV, SPONT/CPAP + PSV, DuoPhasic/APRV + PSV, Backup, Standby Optional: PRVC

Lung mechanics parameters and loops

Inspiratory hold with static compliance measurement

Expiratory hold with PEEPi measurement

O<sub>2</sub> suction with adjustable FiO<sub>2</sub>

Easily removable and sterilizable flow sensor & exhalation valve module

Built-in: Active expiratory PEEP valve, O<sub>2</sub> & Air mixture device,

Synchronized nebulizer, Battery

Up to 72 hour trend table and chart

Self test on start-up

Automatic compliance & leakage compensation for circuit and ET tube

## Specifications

Application: infant and adult

12" TFT touch screen

Ventilation modes: VCV, PCV, SIMV-VC + PSV, SIMV-PC + PSV, SPONT/CPAP + PSV, DuoPhasic/APRV + PSV, Backup, Standby  
Optional: PRVC

Lung mechanics parameters and loops

Inspiratory hold with static compliance measurement

Expiratory hold with PEEP<sub>i</sub> measurement

100% O<sub>2</sub> suction, 2min

Easily removable and sterilizable flow sensor exhalation valve module

Built-in: Active expiratory PEEP valve, O<sub>2</sub> & Air mixture device, Synchronized nebulizer, Battery

# Anesthesia

## PM-X50

The PM-X50 is a fully equipped anesthesia workstation built with the best quality standards.

### Especifications

- Applicable for infant, child and adult. simplified patient type selection and parameter setting, tidal volume 20-1500ml
- 12.1" high resolution TFT touch screen, user friendly design, multiple patient monitoring configuration meet all kinds of clinical requirements
- Configure with startup pre-use test, patient circuit leakage and compliance test
- Electrical control gas mixer, backup fresh gas delivery system for safety Configurable fresh gas flow and O2 concentration
- Driving gas switching system for O2 and Air
- Interlocking two vaporizer mounting system
- Backup yoke gas supply with pressure gauge monitoring □ Auxiliary O2 supply system with flowmeter

## PM-V300 Vaporizer

High quality components make this one of the best of its kind. The PM-V300 will always deliver the best results.

### Especifications

- High class components inside, high reliability
- Temperature, flow and pressure compensation
- Standard connection with Interlock device

### COVID-19 IgM/IgG Antibody Rapid Test Kit

[www.promedco.net](http://www.promedco.net)

**Read Test Results Directly...**  
*Does not require specialized equipment*

Results show in only  
10 min or sooner

*Test results should be  
confirmed with RT-PCR assay  
for complete diagnosis*

#### Applications:

Early diagnosis and screening  
of 2019-nCoV infection for  
CDC or Outpatient and  
Emergency in Hospitals

Rapid screening for primary  
Healthcare institutions

Screening for resumption of  
work in public Institutions  
and companies

Screening for students  
back to school

Tests for both IgM and IgG  
for improved Diagnostics

Sample types:  
- Finger-prick blood  
- Whole blood  
- Serum  
- Plasma

#### Operation:

**STEP 1: Finger-pick blood / whole blood**

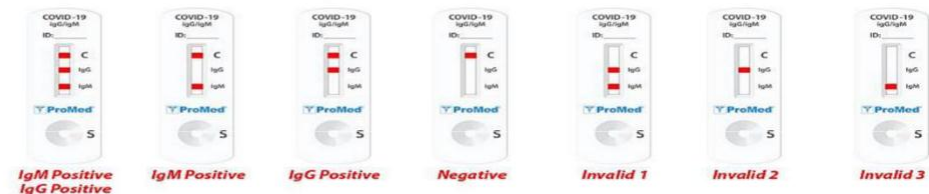

**STEP 2: Diluent**

**STEP 3: Results come out in 2~10 minutes**

## GeneFinder™ COVID-19 Plus RealAmp Kit - Overview

GeneFinder™ COVID-19 Plus RealAmp Kit is the One- Step Reverse Transcription Real-Time PCR Kit designed to detect Novel Corona virus (COVID 19) qualitatively through Reverse Transcription reaction and Real-Time Polymerase Chain Reaction

### Main Features

- Target Genes : RdRp, N, E
- 120 minutes detection for COVID-19
- Reverse Transcription reaction and Real- Time Polymerase Chain Reaction
- Easy-to-use(One-Tube) and interpretation
- Reliable result by internal/Positive/ Negative Control

| Urine/Swab DNA Kit | 48T          |          | FFPE, Tissue                                                                                                                                                             |
| FFPE DNA Kit       | 48T/96T      | 48T      | Stool, Fecal/Rectal Swab                                                                                                                                                 |
| Stool DNA Kit      | 48T          |          | Tissue, Meat                                                                                                                                                             |
| Stool RNA Kit      | 48T          |          | Cell                                                                                                                                                                     |
| Tissue DNA Kit     | 48T          |          | Cell                                                                                                                                                                     |
| Cell DNA Kit       | 48T          |          | Seed, Rice, Corn, Wheat, Bean                                                                                                                                            |
| Cell RNA Kit       | 48T          |          | Leaf, Stem, Root                                                                                                                                                         |
| Plant DNA Kit      | 48T          |          | Food/Fee                                                                                                                                                                 |
| Food DNA Kit       | 48T          |          | Whole Blood, Buffy Coat, Buccal Swab, Saliva                                                                                                                             |
| Genomic DNA Kit    | 48T          |          |                                                                                                                                                                          |

## Kits

**COVID-19  
RESPUESTA**

## ELEMENTOS DE PROTECCIÓN PERSONAL EPP

### 2.1 – Elementos:

- *Mascarilla N95 (con y sin filtro)*
- *Mascarillas FFP2 o FFP3*
- *Guantes Latex y Nitrilo*
- *Gafas y protectores faciales*
- *Protección total del cuerpo*

## **Mascarilla**

### **Quirurgica estandar**

- ✓ Product standard:  
EN149:2001 standard
- ✓ Authentication:  
CE&FDA
- ✓ Package 53x45x30cm
- ✓ 1 Box 0.07155m<sup>3</sup>, 8kg,  
1,500 pieces.

  
**CERTIFICATE OF FDA REGISTRATION**  
Fiscal Year 2020

**Dear Official Correspondent:**  
This document provides notification of the registration numbers assigned to your establishment:

**Establishment Detail:**  
Registration Number: To be assigned  
Owner/Operator Number: 10062820  
Establishment Name: BANBAO CO., LTD  
Establishment Address: BLOCK 13-09, JINYUAN INDUSTRY AREA,  
CHAOSHAN ROAD, SHANTOU,  
GUANGDONG, 515021 CHINA  
Business Type: Manufacturer and Exporter  
US Agent: Thomas E. Weast  
6430 Baum Dr, Knoxville, Tennessee, 37919

**Memos:**  
1) All devices and listing numbers are listed attached.  
2) The user can browse the registration information through the following web page:

## **MASCARILLA N95 o FFP2**

- ✓ Product standard:  
EN149:2001
- ✓ standard European Union
- ✓ EN14683 authentication
- ✓ Authentication: CE & FDA
- ✓ Package 53x45x30cm
- ✓ 1 Box 0.0755m<sup>3</sup>, 6kg,  
400 pieces.

## ***Gafas selladas (Closed Goggles)***

- ✓ Product standard: CE authentication
- ✓ Authentication: CE
- ✓ Package 52.5x46x40
- ✓ 1 Box 0.0966m3, 7.7kg, 50 pieces.

## ***Guantes Latex y Nitrilo***

- ✓ Product standard:  
EN149:2001 standard  
European Union EN14683  
authentication
- ✓ Authentication: CE&FDA
- ✓ Package 53x45x30cm
- ✓ 1 Box 0.08555m<sup>3</sup>, 10kg, 1,000 pieces.

## EQUIPOS DE DIAGNÓSTICO

### ECG – PM 1200

The ECG PM-1200 offers basic ECG solutions with practical features for clinics, office - based practices and clinical trials.

#### Especifications

### ECG – PM 508

ECG PM - 508 makes your job easier with a range of tools to help increase productivity and efficiency.

### ECG – PM 600

The ECG PM - 600 enables all care givers to bring advanced analysis to patients.

PM- SF40... Low cost and high performance. Fit for everyone from doctors to expecting mothers at

#### PM – SF40

home .

#### PM – 300 FETAL MONITOR

The PM-300 is an ergonomically designed fetal monitor which is portable and easy to use.

#### PM – 350 FETAL MONITOR

PM-350 is a hospital grade fetal monitor designed for prenatal monitoring.

#### PM – 7000 Defibrillator

The PM-7000 is a highly reliable defibrillator which provides both AED and Manual defibrillation.

# ELECTROSURGERY ESU

**PM - DT300 - 400P**

The PM- DT300- 400P is a multi-purpose electrocautery generator for use in the modern operating room and surgery-center. It features both monopolar and bipolar functions to satisfy all of your surgical demands with safety, flexibility, reliability, and convenience.

**PM-EK4100**

PM-EK4100 electrocautery device with 400W of maximum output power can be used in all surgery branches like general surgery, orthopedics, urology, cardiovascular surgery and neurosurgery thanks to its high performance and micro operation technology.

## ProMed ESU Meditom Series

Our Meditom Electrocautery Unit provides a unique combination of Safety, Flexibility, Reliability, Convenience and Compact Design.

## PM - ADVANTAGE PLUS

The PM- ADVANTAGE PLUS offers improved easy to use and proven performance. It is designed to help accomplish all caregiver goals.

## PM - INTEGRA

The PM-INTEGRA is a 5-function electric hospital bed which meets all of the patients necessity by providing comfortable position design.

## PM - MILLENIA

The PM-MILLENIA is a 5-function electric hospital bed controlled by 4 motors. It meets patients every need by providing various positions. It is durable and easy to use.

## PM - ULTRACARE

The PM-ULTRACARE is our newly designed intelligent hospital bed. Controlled by 6 Linak motors it provides 8 functions that together with the embedded operator satisfy all patients requirements.

The bed can extend 20cm when needed and easily change into chair position when required.

## PM-LDR

We have designed every detail of the PM-LDR birthing bed to help make the birthing experience safer for you and your patient.

## INFUSION PUMPS

**PM  
- 506i**

The PM - 506i syringe pump can be used to solve your toughest fluid delivery problems. It has a high flow stability for all your demanding applications. The PM - 606PLUS has a simplicity for every medication delivery that helps to enhance the safety for your patients, clinicians, and caregivers. ProMed USA guarantees reliable, steady and consistent performance. PM - 606 PLUS, a reliable pump that will grow with you overtime.

**PM - 606 PLUS**

Our PM-SP Series consisting of a double and a single channel syringe pump provides up to 5 different Infusion Modes allowing you to meet all clinical needs.

### SPECIFICATIONS

Built-in Drug Library for 48 types of Drugs and 25 Drugs

Units 4.3" | 5.7" Sharp and large Display ensures clear view from distance

- Up to 5 different Infusion Modes meet all clinical needs
- Syringe History Record enable easy review
- Knob Navigation and user-friendly Interface for user operation
- Extensive Compatibility and automatic identifying for most of syringe specification
- Various Alarm Function with Volume Adjustment

**PM-SP Series**

## PM-TSP Series

**In both double or single channel our TCI Syringe Pump series can provide up to 8 different infusion modes allowing you to meet all clinical requirements.**

### ***SPECIFICATIONS***

- 4.3"/5.7" Sharp and Big Display with clear view from distance • Sophisticated and intellectualized automatic infusion TCI (target controlled infusion) technology designed for infusion delivery of major anesthetic drugs
- Both Plasma TCI mode and Effect site TCI mode available
- Unique OTCI Function design offsets any effect of Individual Difference • Outstanding software programming application to offer a peace of mind to end-users
- Up to 8 Different Infusion Modes meet all clinical requirements
- Built-in Drug Library for 48 Drugs, 11 TCI Drugs and 25 Drug Units

## PM - Anesthesia Cart

**ProMed USA anesthesia carts provide secure and convenient access to medications, controlled substances and other supplies that practitioners need.**

Made of high-strength alloy ABS body

Made of stainless steel guard rail, centralized lock This anesthesia Trolley is with dust basket, file bin, sliding side shelf, needle disposal holde

Multi bin container Five ABS drawers: 3 big, 2 small each inner with partitions can be organized freely into different size units

Four luxurious noiseless casters, two with brakes

## PM - CodeCart

Our PM- Code Cart is Secure, Organized, Maneuverable, and Accessible.

### ***SPECIFICATIONS***

Emergency trolley made of high-strength alloy ABS, Al-alloy

Column Made of Stainless steel guard rail

With Sliding side shelf

Dust basket, needle disposal holder, file bin IV pole, Defibrillator shelf, power outlet & hooks, oxygen tank holder Centralized lock

# PM – MediCart

**Organized and ready to respond to keep your healthcare facility, clinical lab or office running smoothly.**

## ***SPECIFICATIONS***

This Medicine Trolley is made of ABS body, metal ball-bearing rail. Al-alloy columns

Medicine Trolley is with Dust basket,

Medicine Trolley is with Stainless steel guard rail

Medicine Trolley is with concave top covered with transparent soft plastic glass Centralized lock

4 small & 2 big drawer, inner with partitions can be well organized, drawers repositioned easily

# MONITORS

The PM - 100 is reliable, easy to use, and provides clinical excellence for all patients.

## SPECIFICATIONS

### PM - 100

#### Trend & Reviewing

- Trend: 168 hours
- NIBP measurement reviewing: 1000 groups
- ARR event: 128 groups of ARR event and the associated waveform
- Alarm events: 128 groups of parameter alarm events and associated parameter
- Waveform at the alarm moment
- Holographic waveform: The storage time depends on the stored waveforms and the quantity of them
- Operating atmospheric pressure: 860hPa to 1060hPa
- Storage atmospheric pressure: 500hPa to 1060hPa

#### Environment

- Operating temperature: 0~+40°
- Storage temperature: -20° to +50°
- Operating humidity: 15%~85%(non condensing)
- Storage humidity: 10% to 93%(non condensing)
- Operating atmospheric pressure: 860hPa to 1060hPa
- Storage atmospheric pressure: 500hPa to 1060hPa

#### Safety

- IEC60601-1 Approved, CE marking according to MD09342/IEC

#### ECG

- Lead Mode: 3-lead ECG input
- 5-lead ECG input
- 12-lead ECG input
- Lead selection: I, II, III, aVR, aVL, aVF, V1, V2, V3, V4, V5, V6 (option)
- Gain: 2.5mm/mV(±0.25), 5mm/mV(±0.5), 10mm/mV(±1), 20mm/mV(±2), 40mm/mV(±4), Auto
- CMRR: Monitor mode ≤ 105dB
- Surgery mode: 15.25kHz
- Diagnostic mode: 0.05~150kHz
- Frequency response: (3dB)
- Monitor mode: 0.5~40Hz
- Surgery mode: 1~25kHz
- Diagnostic mode: 0.05~150kHz
- Input impedance: ≥ 5.0kΩ/mV
- ECG signal range: ±10.0mV
- Electrode offset potential: ±500mV
- Patient Leakage Current: <10uA
- Standardizing signal: 1mV±5%
- Baseline recovery: <8s after Defibrillation (Mon or Surg mode)
- Indication of electrode separation: Every electrode(exclusive of RL)
- Protection: Breakdown Voltage 4000AVC 5060Hz, defibrillator proof
- Sweep speed: 12.5mm/s, 25mm/s, 50mm/s

#### HR

- Range: Adult 10~300bpm
- Pediatric & Neonate: 10~350bpm
- Refreshing time: 50bpm per 2 pulses
- 50~120bpm per 4 pulses
- ≥120bpm per 6 pulses
- Resolution: 1bpm
- Accuracy: ±1% or ±1bpm, whichever is greater

#### ST segment

- Measurement range: -2.0mV~+2.0mV
- Accuracy: 0.0mV~0.0mV; ±0.02mV or ±10% whichever is greater
- Over ±0.0mV, unspecified
- Resolution: 0.01mV

#### Netcor-SpO2

- Measurement Range: 0~100%
- Resolution: 1%
- Accuracy: A7D~100%±2%(Adult)
- A7D~100%±3%(Neonate)
- A7D~100%±2%(Low Perfusion)
- A7D~69%, unspecified

#### PR

- Measurement Range: 20~300bpm
- Resolution: 1bpm
- Accuracy: 20bpm to 250bpm: ±3bpm
- 251bpm to 300bpm: unspecified

#### Masimo-SpO2

- Measurement Range: 0% to 100%
- Resolution: 1%
- Accuracy: 70% to 100%±2%(adult/pediatric, non-motion conditions)
- 70% to 100%±3%(neonate, non-motion conditions)
- 70% to 100%±3%(motion conditions)
- 0% to 69%, unspecified
- Average time: 2-4s, 4-6s, 8s, 10s, 12s, 14s, 16s

#### PR

- Measurement Range: 20bpm to 240bpm
- Accuracy: ±3bpm(non-motion conditions)
- ±5bpm(motion conditions)
- Resolution: 1bpm

#### TEMP

- Max Channel: 4
- Measurement way: Thermal resistance way
- Measurement Range: 0.0°C~50.0°C(32°F~122°F)
- Accuracy: ±0.1°C or ±1°F(exclusive of probe)
- Resolution: 0.1°C or 1°F
- Unit: Celsius(°C), Fahrenheit(°F)
- Connecting cable: Compatible with YSI-400 serial

#### EiCO2 (Mainstream)

- Measure method: Infrared spectrum
- Warm up time: Capnogram displayed in less than 15 seconds, At an ambient temperature of 25°C, full specifications within 2 minutes.
- Measure Range: 0.0~19.3%(0~150mmHg)
- Resolution: 1mmHg
- Rise time(10mm): ≤60ms
- Unit: %mmHg, kpa
- CO2 Accuracy: 0-40mmHg, ±2mmHg
- 41-70mmHg, ±5% of reading
- 71-100mmHg, ±8% of reading
- 101-150mmHg, ±10% of reading
- (at 700 mmHg, ambient temperature of 35°C)
- a-vRR measurement range: 0~150bpm
- a-vRR measurement Accuracy: ±1bpm

#### IBP

- Max Channel: 4
- Measurement way: Directly invasive pressure measurement
- Sensitivity of transducer: 5uV/V/mmHg, ±2%
- Impedance of transducer: 300 to 3000Ω
- Measurement Range: -50~+350mmHg
- Resolution: 1mmHg
- Unit: mmHg, kpa, cmH2O
- Accuracy: ±1mmHg or ±2%, whichever is greater(exclusive of transducer)
- ±4mmHg or ±4%, whichever is greater(inclusion of transducer)

#### PR

- Measurement Range: 25~250bpm
- Resolution: 1bpm
- Accuracy: ±1% or ±1bpm, whichever is greater

#### Multi Gas

- Measure method: Infrared spectrum
- Fi and ET values: CO2, N2O, O2, AG, HAL, ISO, NEF, SEV, DES
- Resolution: 1%
- Unit: %
- Calibration: Room air calibration automatically when changing airway Adapter (<5 sec)
- Warm-up time: <10S, full accuracy within 1min
- Measurement and alarm range of AG

| Gas           | Range   | Accuracy             |
|---------------|---------|----------------------|
| CO2           | 0-10%   | ±(0.3% ABS+4% REL)   |
| N2O           | 0-100%  | ±(2% ABS+8% REL)     |
| O2            | 10-100% | ±(2% ABS+2% REL)     |
| HAL, ISO, ENF | 0-5%    | ±(0.15% ABS+10% REL) |
| SEV           | 0-8%    | ±(0.15% ABS+10% REL) |
| DES           | 0-18%   | ±(0.15% ABS+10% REL) |

- a-vRR measurement range: 0~150bpm
- a-vRR measurement Accuracy: ±1bpm
- Rise time/flow speed 10l/min: CO2 ≤ 90ms
- O2 ≤ 300ms
- N2O ≤ 300ms
- Hal, Iso, Enf, Sev, Des ≤ 300ms
- Total system response time: <1seconds

#### Noninvasive Cardio Output (iCO):

- Method: Measurement of thoracic electrical bioimpedance
- Measurement Range: HR: 40~250bpm
- SV: 5~250ml
- SI: 5~125ml/m2
- C.O.: 1.4~15L/min
- TFC: 15~143KΩ
- Accuracy: HR: ±2bpm
- SV: unspecified
- C.O: unspecified
- Alarm range: C.L: 0.0L/min/m2 to 15.0 L/min/m2 continuously adjustable
- TFC: 10KΩ to 150KΩ continuously adjustable.

#### Standard Configuration:

- Main unit: 8" TFT-LCD display, 1 Standard module slot, 1 Additional module rack
- Slot for EMS or MMS all-in-one module, 1 RJ45 internet socket, 1
- Defibrillation Output, 1 Nurse Call socket, 1 VGA port, 2 USB 1.1 port, 1 Auxiliary
- Module Rack connector, 1 12V DC port

#### Option of AccuSign M3:

- MMS module: 8 Kinds of option
- Or EMS module: 8 Kinds of option
- Option Module: Microstream CO2 module, Mainstream CO2 module,
- Mainstream AG module, ICG module, IBP module, Temp module, , Neolcor
- SpO2 module, Masimo SpO2 module, SD Memory
- Module Rack: Auxiliary Module Rack
- Navigating: USB compatible mouse and keyboard,
- Printing: 3 Channel Thermal Recorder
- Mounting: Rolling stand, Wall mount
- Battery: 11.1V/4.0AH Rechargeable Lithium Battery,
- Other options: External Display, Wireless Lan, Extensive Memory card,
- Analog Output (ECG or IBP), Full Touch Screen

**PM - 5000 Modular PM - 5000 Modular is flexible, compact, and portable. It supports superior monitoring workflow, providing ultimate quality and excellence.**

### **SPECIFICATIONS**

- 12.1" Color Anti-glare TGT-LCD
- The world's leading multi-parameters module with built-in screen
- Powerful host machine with ergonomic design
- Dozens of parameters with various modules assembled as demand
- Easy upgrade, save replacement cost.
- Support for multi-output operation
- Faceless Cooling-down System make it clean, durable and lower the power consumption.
- Over 3h's battery life
- Touch Screen (Optional), supporting Mouse and Key board operation
- Available for multi-language interface
- Independent Physiological & Technical Alarm
- Built-in detachable rechargeable lithium battery
- Particularly backlight button for night operation
- SD card socket, effective storage for historical patient data
- Global-Leading all-in-one module with display and built-in battery.
- Powerful measurement, ergonomic and flexible design.
- Can connect independent large display when multi-display is required.
- Fanless cooling-down system, keep the monitor working quietly.
- Dozens of parameters with various modules assembled as demand, easy upgrade, save replacement cost.
- Can seamlessly connect HIS, CIS, LIS, and PACS.

**PM - 80 This high accuracy Patient Monitor is user friendly for all your healthcare solutions.**

### ***SPECIFICATIONS***

Size: 318mm x 264mm x 152mm

## PM - 90 EXPRESS

PM - 90 Express Patient Monitor has advanced platform of software and hardware. Completely reach the clinical needs of standard vital signs, high acuity and anesthesia monitoring. It has standard arrangement of ECG, HR, RESP, NIBP, SPO2.2 TEMP and Lithium Battery. This Lithium battery work for long time with maximum 4 hours for two batteries.

### SPECIFICATIONS

- Colorful and clear 15" TFT LCD
- Adequately meet the hospital's clinical needs with peculiar 7/12 leads in the same screen,
- 30 minutes one important lead's ECG waveform reviewing
- Applicable ECG cable of 3/5 leads, automatic recognition
- 72 hours trend data and trend maps
- Digital SpO2 technology— anti-motion, anti-low perfusion, anti-electrosurgical interference
- Store and Reviewing
- 1000 groups NIBP measurement
- 1800 groups Alarm events reviewing
- Thermal Recorder with real-time recording and alarm-trigger printing function is available as an option.
- Supporting for drug dose calculation, other bed, short trend, OXYCRG
- Supporting for VGA output and power failure data-store and SD card
- Supporting for defibrillation protection
- Supporting for High blood pressure mold
- Built-in detachable rechargeable lithium battery.
- Can be connected to the central monitoring system in wired or wireless
- Dual Alarm light — Physiological Alarm light and Equipment Technical Alarm light
- Back light buttons

## PM-BIOZ

**Our Bio-Z Patient Monitor has very high accuracy. It is non invasive, safe, but most importantly it is very easy to use.**

### ***SPECTIFICATIONS***

- Real time update
- Five kinds of user- defined screen
- Four kinds of user- defined report
- High accuracy
- Powerful anti- jamming capability
- Non Invasive

PM - CMS is an advanced networking and storage Central Monitoring System that is ideal for use in a variety of clinical settings.

**Feature**

- Connected to max 66 bedside units at the same time
- Combined seamless networking: wire, wireless LAN
- Complete ward at a glance: real-time 32 patients display with 66 waveforms per station
- 240 hours patient data, 96 hours full disclosure and up to 30000 patients' historical data storage and review
- User friendly windows style interface
- Smart monitoring management

**Technical specification**

- In accordance with IEC60601 standard
- Power Supply: AC 100-120/200-240V, 50/60Hz

- View bed: Up to 64 waveforms for 32 bedside monitors (dual-screen display)
- Possible to select required beds and automatically align the screen windows
- All waveform presentation for one patient
- Oxy CRG display
- 7-leads or 12-lead ECG waveform display
- Waveform frozen
- Remote Monitor Control
- Bi-directional communication
- Central Unit able to remotely control the bedside unit to measure BP

**Alarm**

- Alarm limits can be set up for all parameters
- Visible and audible alarms are provided for exceeding the limit of: HR/RESP/SPO2/PULSE/BP/TEMP/CO2

## PM - VISTA

**This Vital Sign Patient Monitor is super compact and lightweight for instant availability. Provides exceptional data storage capacity for both continuous monitoring and spot check.**

### ***SPECIFICATIONS***

Size: 160 x 130 x 260mm

Display: 7" Color Anit-Glare TFT-LCD

Resolution 234 x 480 pixels

Measurement Mode: Side stream Battery: 11.1V

4000mAh rechargeable lithium battery

Power Voltage: AC 100-240V, 50/60Hz

## PM-300 Fetal Monitor

The PM-300 is an ergonomically designed fetal monitor which is portable and easy to use.

## PM-350 Fetal Monitor

PM-350 is a hospital grade fetal monitor designed for prenatal monitoring.

## PM-7000 Defibrillator

The PM-7000 is a highly reliable defibrillator which provides both AED and Manual defibrillation.

### TECHNICAL SPECIFICATIONS

#### DISPLAY

Screen Type: High-resolution display  
Screen Size: 7 inches(17.7 cm) diagonally  
Sweep Speed: 25mm/sec  
Information: Heart Rate, Lead/Pads, Alarm  
On/Off, SpO2, AED Functions and Prompts,  
Alarm Selection and Limits, Delivered Energy

#### DEFIBRILLATOR

Waveform: Biphasic  
Energy Display: Monitor display indicates both  
selected and delivered energy  
Charge Prompt Type: Voice and visual prompts  
Electrode Impedance Measurement Range: 0-250 ohms

#### SPO2 MODULE

Measurement Range: 30-100%,  $\pm 2\%$  between 80%-90%,  
others  $\pm 5\%$   
Alarm Range: User set high limit and low limit  
Alarm Accuracy:  $\pm 10\%$  within setting values  
Alarm time Accuracy: less than 12 sec

#### RECORDER

Paper: 50mm thermal  
Speed: 12.5mm/sec, 25mm/sec, 50mm/sec.  
User-selectable 6-second delay  
Printing Method: High-resolution, thermal array print head  
Print-out Modes: Manual or automatic, user-configurable  
On/Off Control: Front panel and paddle

Our modular and configured monitors assure immediate access to comprehensive patient data when and where needed. Parameter modules enable you to customize monitoring to

## PM-i10 Patient Monitor

specific patients. Its modular design is flexible and convenient to accommodate different patient acuity needs. The plug-and-play design and intuitive navigation is convenient for clinicians to setup and start monitoring patients easily.

### SPECIFICATIONS

A whole new visual sense

12.1 " TFT display color screen,

Resolution: 800x600

Screen Lightness: 10 level adjustable

10 channel waveforms on display screen, can be upgraded to 12 channel

Convenient Operation, A combination of Operation

Full Touch Screen, Fingertip Operation, One-step process

Convenient keyboard, Backlight button, luminous key

## PM-i15 Patient Monitor

**The vertical design on this PM-i15 allows for easy readability and outstanding monitor performance.**

### ***SPECIFICATIONS***

- Unique vertical design allows for outstanding readability.
- 15" LCD super Display with full touch widescreen.
- High-end parameter modules.
- Flexibility and freedom allowing the re-configuration of major monitoring parameter
- Exceptional connectivity by wired or wireless networking

**Simple to operate and with its integrated compact design the PM-OX600 is top in its class.**

## **SPECIFICATIONS**

- Integrated and compact design
- Small in volume, light in weight and convenient for carrying
- Simple operation, low power consumption
- Color OLED display, 4 display directions
- SpO2, Pulse rate, value, Bar graph and Pulse waveform display
- Alarm sound available and adjustable
- Measured data overruns limits, low-voltage alarm function, upper/down alarm range all adjustable
- Automatically power off when no measurement
- SpO2 Measuring Range: 0%~ 100% • Resolution: 1%
- Accuracy: 70% ~ 100%:  $\pm 2\%$ , 0-69% unspecified.
- PR Measuring Range: 25bpm- 250bpm,
- Resolution: 1 bpm
- Accuracy:  $\pm 2$ bpm or  $\pm 2\%$  (select larger)
- Size: 58 x 31 x 29 mm
- Weight: ~ 50 g
- With two AAA batteries Battery Type: AAA
- Operating time under the normal use: ~24 Hours Standard configuration of Oxsor 60:
- Main Unit with 2 AAA batteries.

## INFORMACIÓN GENERAL SOBRE ACUERDOS DE NEGOCIACIÓN

### Vigencia de las cotizaciones:

5 días calendario, a partir de su expedición.

### Formas de Pago:

Trabajamos bajo los parámetros de contratos de suministro de ejecución abierta, a precios unitarios. Ofrecemos 3 modalidades de pago

Los pagos se comenzarán a efectuar al momento de la suscripción del contrato, como se describe a continuación:

- **FIDUCIA CONGELADA 100%:** Funciona como Garantía de pago, más no como Vehículo Financiero. Se realiza por el valor total del contrato, a través de la cual los fondos se liberan en su totalidad una vez la mercancía se encuentre en Bogotá - Colombia, y sea verificada por el cliente.
- **CARTA DE CRÉDITO:** A través de una carta de crédito por el valor total del contrato, tipo SBLC (Stand By Letter Of Credit) incondicional, respaldada en la moneda de emisión,

irrevocable, divisible, asignable y transferible, no debe ser de alquiler o leasing, debe ser emitida por un banco de primera línea bajo las normas de la Cámara Internacional de comercio ICC 500/600 URDG 758 o superior, según se describe en el anexo 1 (DRAFT OF SWIFT MT 760 FOTR SBLC – ICC 500/600 UDRG 758).

**ANTICIPO:** Anticipo del 25% a la firma del contrato y 75% restante contra entrega, a satisfacción del cliente.

**Precio Incluye:** Producto + Seguro + Transporte a Colombia + Nacionalización e Impuestos

**NOTA:** Nosotros entregamos sin costos adicionales, la mercancía en Zona Franca de ciudades principales de Colombia. El Cliente deberá contratar el Transporte y seguridad para la entrega de la mercancía a su destino final y todos los gastos generados por este concepto, estarán a cargo del Cliente. Los tapabocas están sin IVA incluido ya que por orden del gobierno nacional y por tratarse de un producto de vital necesidad para mitigar y evitar el contagio como medida de protección, dichos productos fueron excluidos del IVA, en caso que la mercancía llegue posterior al levantamiento de las medidas de emergencia y se le aplique de nuevo el IVA u gravamen arancelario, este valor lo asumirá el comprador.

### Sitio de Entrega:

Bogotá – Colombia, o a convenir, se podrá entregar en alguna de las demás ciudades principales del país.

### Tiempos de Entrega:

**ÁEREA:** La primera entrega en modalidad aérea, está en un tiempo estimado de 12 días calendario.

**MARÍTIMA:** La primera entrega en modalidad marítima en Máximo de veintitrés (23) a treinta cuatro (34) días calendario.

**Siguientes entregas:** Si hay lugar a siguientes entregas, estas serán de común acuerdo, las cuales pueden ser, semanales y mensuales dependiendo de la cantidad y tiempo del contrato, estas se basan en la forma del traslado las cuales puede ser en modalidad Área y Marítima. Estos tiempos cuentan a partir de constituida la Fiducia, Aprobada la Carta de Crédito o cuando el anticipo se vea reflejado en la cuenta de nuestra empresa. Estos tiempos pueden variar, siempre están sujetos a la cantidad contratada, la disponibilidad de producción en Asia, la

**Carrera 43A 15 Sur 15, Oficina**  
301, Ed. XEROX-interior 7

disponibilidad de carga para Transporte y los cambios en la legislación sobre importación de productos para la Emergencia Sanitaria.

**Procedimiento documental:**

- Aprobación por escrito de la Propuesta Comercial para la Venta (Cotización)
- Se solicita al cliente: Cámara de comercio / Rut / Cédula del Representante Legal / Contrato de Servicios / Póliza de Seguro / Formato Sarlaft
- Se tramita por parte del cliente, una Carta de intención de compra y Prueba de Fondos.
- Se realiza Orden de Compra Irrevocable, que firman ambas partes. Esta contiene la ficha técnica, Cronograma de entrega, Especificaciones de precio, cantidad y Condiciones sobre él o los productos solicitados.
- Se diligencia El Contrato de Compraventa, el cual va vigilado por una Póliza de cumplimiento con Clausulas Bilaterales, y es verificado por nuestro departamento jurídico y posteriormente autenticado en Notaría por ambas partes, previo a la emisión de la Carta de Crédito, Fiducia o Anticipo.
- Posterior a la emisión de la Carta de Crédito, Fiducia o Anticipo se verifica y Aprueba para proceder con la Importación.
- Una vez la mercancía se encuentre en Colombia y haya sido nacionalizada, se contacta al cliente para su respectiva Verificación, hacer efectivo el pago restante y la entrega.

## ACLARACIONES

- ❖ Los Tiempos de tránsito son estimados y están sujetos a cambio sin previo aviso. Estos empiezan a contar a partir del pago al proveedor en el exterior.
- ❖ Nuestra compañía logística cuenta con Transportadores, Líneas Marítimas y/o Aerolíneas, etc, y no excederá las limitaciones estipuladas en las normas oficiales vigentes de cualquier modalidad de transporte, por lo cual, no trabaja con presentación anticipada de las Declaraciones de Importación, ya que, por la emergencia sanitaria puede haber posibles cambios de arribo; esto con el fin de ajustarse a los plazos reglamentados por la Aduana Colombiana. Por lo tanto, nuestra agencia logística en ningún caso asumirá la responsabilidad sobre el cambio de Itinerarios aplicables al transporte en cualquiera de sus modalidades.
- ❖ Oferta Sujeta a Disponibilidad de Espacio y Equipos, Tener en cuenta que las compañías transportadoras (Aerolíneas, Líneas Navieras y Transportadores Terrestres) no garantizan un servicio expresado en su propuesta de valor y/o en sus publicaciones por cualquier medio, debido a la situación de emergencia sanitaria mundial.

- ❖ Nuestra agencia logística se acoge a cabalidad a toda reglamentación gubernamental de los países que involucre la operación de compra, venta, transporte y demás, por lo que no se responsabiliza por retrasos causados por cualquier tipo de situación presentada. Debido a la emergencia mundial, los tiempos aquí estipulados pueden ser susceptibles a cambios, por lo cual solo hasta definir el negocio podemos detallar más precisamente estos, por disponibilidad de Charters y embarcaciones.
- ❖ Todos los productos se nacionalizan con VoBo del Invima (Uso Industrial).

## NUESTRAS VENTAJAS:

- ✓ Controlamos todo el proceso desde la selección y validación de proveedores ante los entes correspondientes (CE, FDA), proceso de producción y calidad de producto, hasta la entrega a nuestros clientes finales. Al ser importadores directos, no hay intermediarios, lo cual nos permite manejar excelentes precios.
- ✓ Estamos en capacidad de financiar 100% la compra de la producción total de nuestros clientes, facilitando así la forma de Fiducia congelada al 100% garantizando a nuestros clientes, que esta Funciona como Garantía de pago, más no como Vehículo Financiero

- ✓ Es para nosotros motivo de orgullo, poner a su disposición nuestra flota de aviones de uso – dual, para el movimiento de carga y la creación de un puente aéreo, entre los países asiáticos, como suministradores de elementos vitales no disponibles y la República de Colombia, entre otros. Logrando así, ser uno de los proveedores más competitivos en temas logísticos, a nivel Latinoamérica. Ver datos de nuestra flota de aviones en la Próxima página.
- ✓ Tenemos garantizado altos volúmenes de importación, en el caso de las mascarillas o tapabocas, contamos con un cupo de 260 millones semanales.
- ✓ Contamos con proveedores fabricantes de países como: China, India, Marruecos, Tailandia, Indonesia, Corea, Vietnam, entre otros. Todas ellas con certificaciones FDA-CE-NIOSH, avaladas por INVIMA.
- ✓ Las anteriores ventajas, permiten que manejemos los precios más competitivos del mercado. A continuación presentamos, el parque de equipos disponibles, así como sus condiciones de capacidad:
