

# BrakingTech

Brake Solutions for Commercial Vehicles

**DISC BRAKE  
CALIPER REPAIR KITS**

# About Us

- ▶ **BrakingTech Excellence in Caliper Brake Parts...**
- ▶ Serin Otomotiv is located in İzmir TURKEY with the intention of independently manufacturing **Caliper Repair Kits** for trucks, trailers, buses and distributing them, we specialize in **Brake Systems & Components**.
- ▶ Today's economic situation has brought competition into foreground. Competition brought some innovations and changes into production methods. This made contract manufacturing and subcontractors preferable. We also use subcontractors for having same quality with OE products cheaper by using our resources. We make advantage against our competitors by using subcontractors.

# Why People Choose Us?

- ▶ BrakingTech is an aftermarket supplier company but the difference is quality of key products (mechanisms) is at the same level as original.
- ▶ Moreover, we aim to bring the quality to the next step by focusing on 100% quality control and adding innovative ways into production at the same time keeping the reasonable price.
- ▶ There are 3 key factors in production: quality, planning and price. According to these factors we manufacture our products which are on the same level as original in our sites cooperating with subcontractors to deliver the products on time at competitive price. That is why BrakingTech is always one step ahead from its competitors.
