

MANGO PULP

NATURAL RIO MAGDALENA **NFC**

Our mango pulp is made from fresh, healthy, ripe mangoes carefully selected and processed under strict quality controls to preserve its natural color, aroma and characteristic flavor. It is a smooth, undiluted, non-concentrated, and non-fermented product, obtained through the disintegration and tamizing of the edible portion of the fruit. It is pasteurized, aseptically packed, and stored under hygienic conditions to ensure a safe, natural, and excellent quality product. Ideal for the production of juices, nectars, smoothies, desserts, ice creams, sauces, and a wide variety of applications in the food industry.
