RSE PROYECT

**SAFE TECHNOLOGY
FOR STUDENTS, PARENTS
AND TEACHERS**

The project «Seguro @prendo» was born to raise awareness among students, parents and teachers about the dangers inherent in the use of technology in their different fields.

Our project revolves around the dictation of lectures, talks and free training sessions in public schools and non-profit organizations with the aim of providing free and useful information for family, teachers and students in the correct use of interaction Daily with technology.

We created this project from our experiences as parents and as IT Professionals who are aware of the risks that exist on the Internet and the need to raise awareness and educate in the responsible use of technologies.
