About us

Our company started in 2016 but we design and manufacture healthy snacks from 2004.

We are very concerned about what and how people eat and that's why we take care to give them a healthy alternative.

Working directly with the best rice producers, we achieved a compact, crispy and healthy rice cake.

Our company specializes in the manufacture and distribution of healthy food products derived from rice.

The manufacture company is in Argentina, but we have a distribution company in the US.

We have a GLUTEN FREE and KOSHER with BRC processing plant of 2300 ft in Buenos Aires that complies with the corresponding requirements of HACCP and the sanitary norms of Argentina. Our goal as a company is to develop and supply the market with quality products, for a better nutrition.
