

Dynamo
GLOBAL

ERP IN A DIFFERENT WAY

Dynamo is a business consulting company with a focus on process optimization through the implementation of Microsoft Dynamics AX / Dynamics 365 Finance and Operations, and related support services including maintenance, advisory activities, quick improvements, training, and specific projects, such as version migration and incorporation of new modules.

ERP IN A **DIFFERENT** WAY

WHAT MAKES US STAND OUT?

- ✓ We are **passionate**, **committed**, and **transparent** with our customers.
- ✓ We are **highly motivated** throughout each project so that the project's objectives are **always achieved**.
- ✓ We keep our **communications open and clear** be it with customers, team members or suppliers, and **provide important information** even if not requested.
- ✓ We fulfill our obligations with **maximum responsibility**, to the extent that we perform tasks that **exceed** what was initially committed.

HIGHLIGHTS

We are a certified **Microsoft Gold Partner** and **Cloud Solution Provider Partner**.

Since our foundation, we have taken part in **35+ implementation projects of Dynamics' ERP** across 11 Latin American countries, UK and Japan.

Our team of functional consultants is composed by **Accountants, Industrial Engineers, Chemical Engineers, Business Management Professionals** and more, that have specialized in the implementation of Dynamics 365 Finance and Operations.

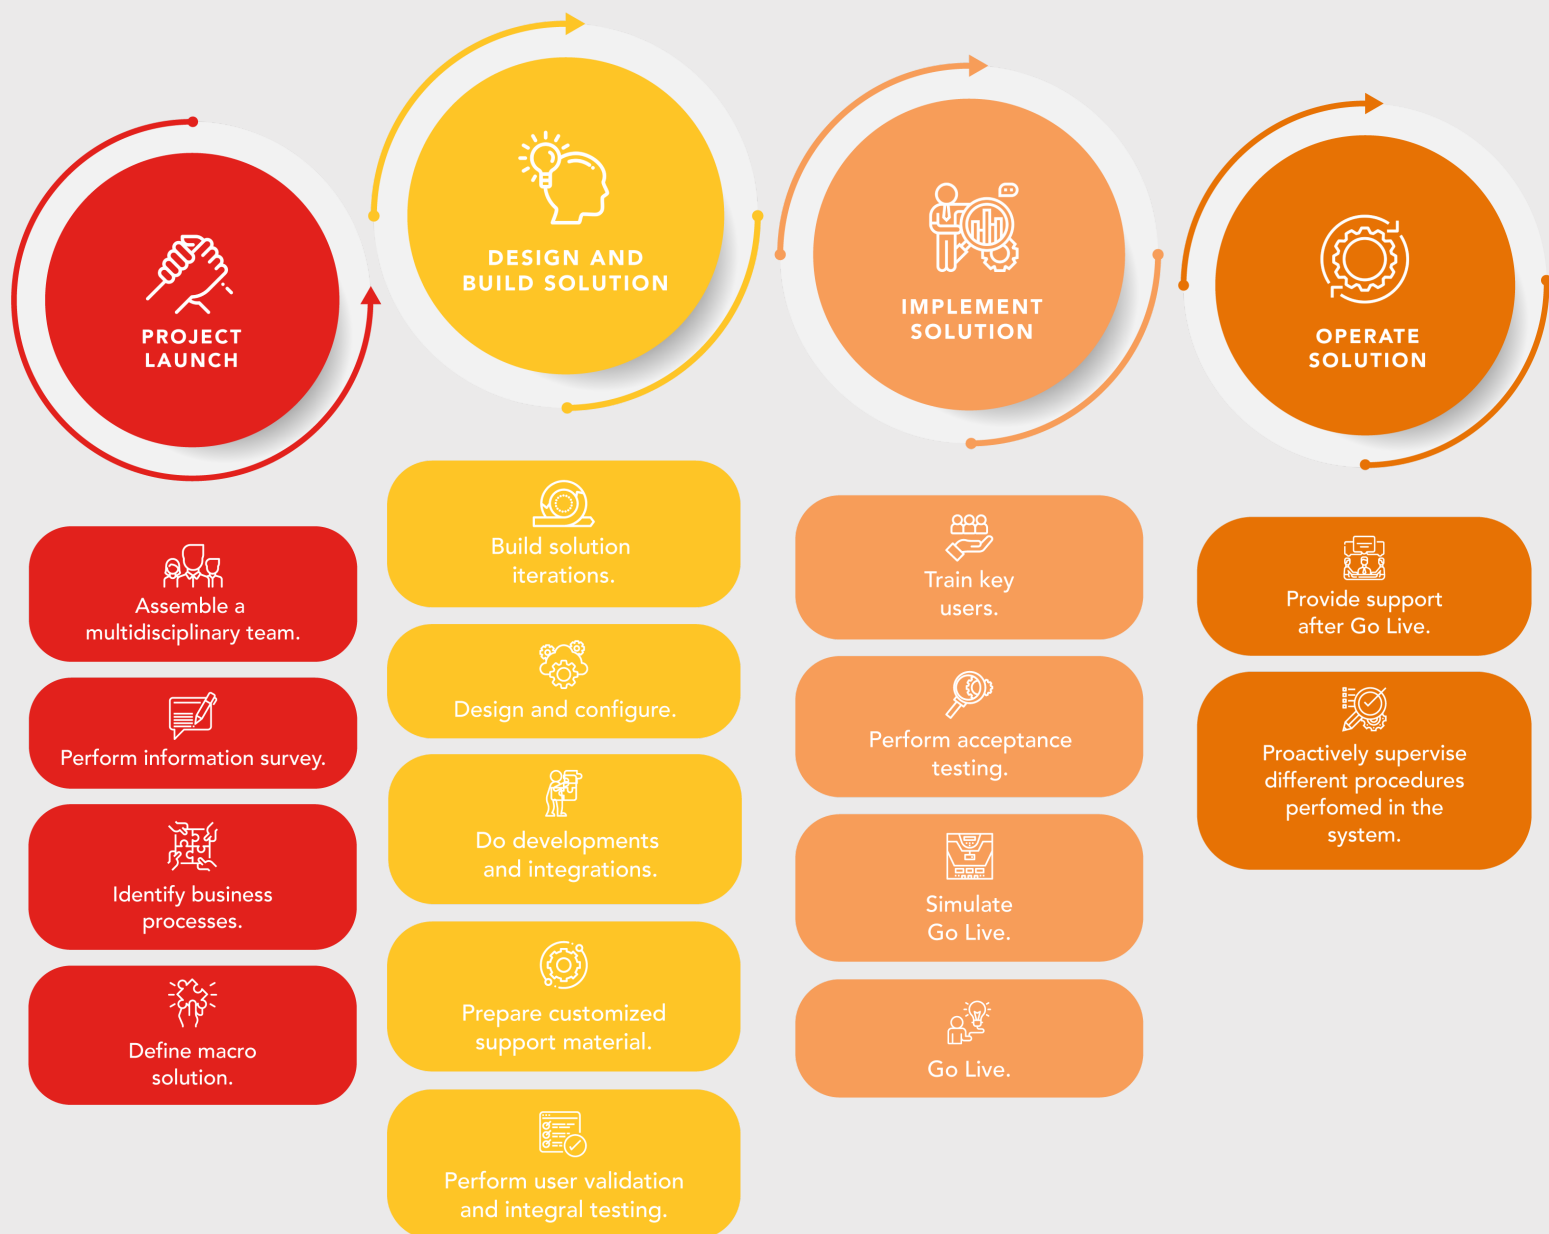

When possible, we can provide **friendly pricing schemes** that consider **sharing risks**, and not just time and material

IMPLEMENTATION

We provide **end to end** implementation services of Microsoft Dynamics 365 Finance & Operations, catered to your business requirements.

Our projects **rely on best practices and proven project methodologies based on the Project Management Institute.**

We focus on providing an **outstanding customer experience**, with a **personalized attention** during the process of implementation, managing **clear and precise** communications and expectations.

SUPPORT

We offer an array of Dynamics AX and Dynamics 365 F&O support services focusing on delivering an outstanding customer experience

Maintenance

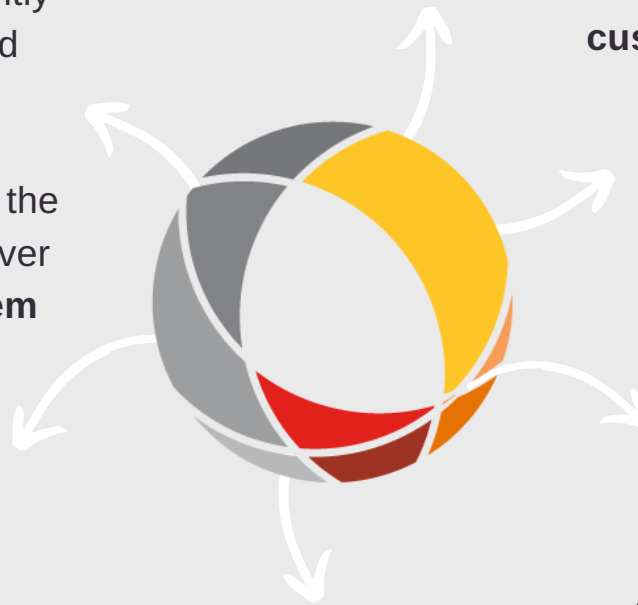

We provide **corrective maintenance** to deal with system errors, **adaptive maintenance** to constantly keep the system updated with Microsoft's latest releases, **preventive maintenance** to protect the system's performance over time, and ongoing **system administration**.

Assesment

Our experienced team of functional consultants can assist you with many types of **advisory activities**.

Development

Our **Development and Technology Centre** is working continually in designing and developing **customizable** functionalities to use in Microsoft Dynamics AX/365F&O.

Quick

Improvements

We offer the option of implementing quick improvements to companies that need **minor evolutions** on their ERP system.

Projects

When the improvement required is large enough, we handle it through our **systematic projects' methodology**.

Training

Our specialized team of consultants could set tailored training programs for our customers to give them real tools and resources about Microsoft Dynamics AX/365F&O, either **in person or online**.

OUR SOLUTIONS

DYNAMO'S ADVANCED IMPORTS MANAGEMENT

Advanced Imports Management module for Dynamics 365 Finance & Operations is a built-in solution that integrates seamlessly with other system modules. It offers quick, efficient and secure imports management, providing detailed and accurate shipment tracking at a logistic and financial level, reducing administrative costs. The entire organization will have visibility to arrival dates and better control over the imports process.

SUPPLY CHAIN

- Optimization
- Productivity
- Visibility
- Efficiency

COSTING

- Accurate shipment costs
- Imports expenses distributions by different criteria
- Precise information

You can find this solution in the Microsoft AppSource.

Available on
Microsoft AppSource

We also work with third party solutions for Dynamics AX / Dynamics 365 F&O such as SANA's e-commerce, Dynaway's EAM, Latam Localization and more.

We provide the **personalized attention** that **bigger partners** usually **don't**, giving each **customer** the **attention they deserve**

PASSION - COMMITMENT - TRANSPARENCY
PROFESSIONALISM - SERVICE ORIENTATION

This is what customers say about us!

MARTIN VOULMINOT,
CEO ROMAN GROUP

"We opted for the Dynamics solution to support our full service field management.

Our local Partner, Dynamo, was a company in which we could really trust and consider them as business partners ahead.

"I DO NOT REALLY SEE AN EVOLUTION OF THE COMPANY WITH DYNAMICS DETACHED FROM A RELATIONSHIP WITH DYNAMO."

MATTHEW ARNOTT,
ERP PRODUCT LEAD FOR END

"What Dynamo offers is a service that allows us to implement at our pace. They are able to front the right person when we need to speak to them. They've taken the time to understand our business and what we want to achieve. They are really cost-effective to work with because its offshore for us and we do a lot of work via videoconference. I like to look at Dynamo as a sort of extension of my internal project team.

IN MY 20 YEARS OF IMPLEMENTING ERP PLATFORMS THIS IS THE FIRST COMPANY THAT I FEEL COMFORTABLE WITH GIVING A TESTIMONY OF".
