

# LOGICAL COMMANDER SOFTWARE LTD

## TECHNOLOGY AGAINST RISKS

Israeli software company established since 2018 by 3 renowned high-tech veterans. **First SaaS platform to prevent, detect and manage organizational risks related to human capital.**

Organizations lose trillions of dollars each year due to the costs of internal risks and psychosocial risks at work.

### PROBLEM

Old technologies

The usual solutions neither prevent nor detect.

No details and no interaction between solutions

They do not operate in real-time

Invasive, Violent and Intrusive

Very expensive and No ROI

### SOLUTION

We provide an inclusive, unique and disruptive SaaS platform to detect, monitor and prevent internal risks and psychosocial risks in workers within organizations in real time.

### FUTURE CAPABILITIES

Drug and alcohol detection

Background check

Artificial intelligence prediction and deep learning

Digital forms (sports and psychosocial)

SOS and internal complaints

### WHY US?

We are the unique platform capable of reducing through prevention in real time

Multiple verticals and industries use our solutions

**Immediate ROI** of more than 98% of the total costs arising from any Risk organizations have.

### Market Data

**+110** Distributors

**+190** Organizations  
using our solutions in +33  
countries

Very positive reaction from the  
markets towards our solutions.

### Some general and unique capabilities

- > 1st Solution to prevent and reduce internal risks in real time.
- > Immediate return of millions of USD
- > Non-invasive, Non-intrusive, Non-violent
- > Correlation of data between solutions.
- > Strategic decisions immediately.
- > Profitable (cost-effective)

ESTABLISHMENT Since 2018

Since July 2019

2021

### VISION

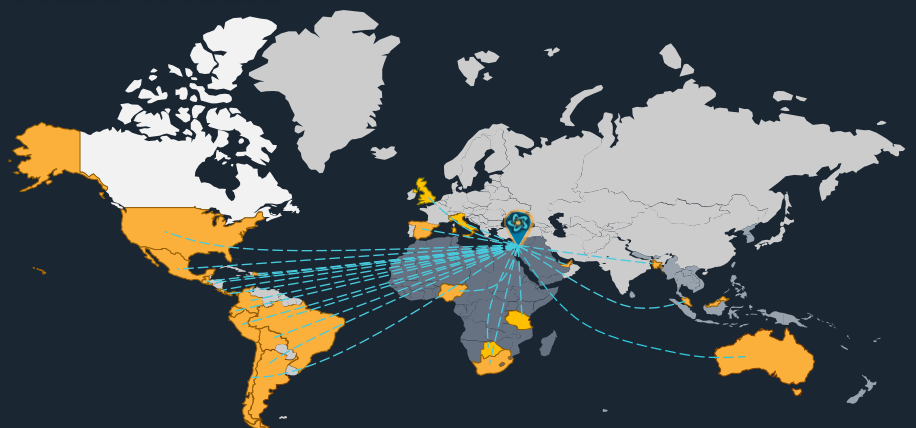

To become the largest platform for the prevention, detection and management of internal and psychosocial risk.

### MISSION

Continue with disruptive and innovative developments to provide immediate responses to any problems that organizations have and that generally translate into monetary losses.

### Market location

## NOT KNOWING, DOES NOT MEAN THAT YOU DO NOT HAVE...!

The lack of recognition, location, prevention and treatment in real time of cases of organizational risk, both in the Public and Private sectors, are a cost and a practically invaluable damage for any organization.
