

Your payment processor
in Latin America

OFFICIAL SPONSOR

OFFICIAL SPONSOR

Official
Sponsor of
CONMEBOL
Sudamericana

Let's play together

PayRetailers is now an Official Sponsor of the South American football tournament CONMEBOL Sudamericana, and strengthens our relationship with the region. This is the first time a PSP has officially sponsored CONMEBOL Sudamericana, the second-most prestigious club competition in South American football. Empowering our social commitment in Latin America, we have reached an agreement with the South American football confederation by which we become the Official Sponsor of CONMEBOL Sudamericana for the next two seasons.

Easy Integration

Rest API

Flexible and robust API designed to be integrated into web or mobile applications, saving time and money on long integration processes.

Libraries (SDK)

PayRetailers has Development libraries for multiple languages and platforms: Python, PHP, Ruby, Node.js, and others.

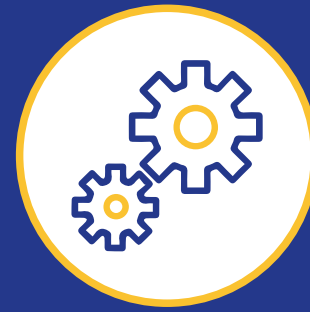

Plug-in integration

Our extensive documentation includes all the methods and plug-ins to help integrate your solution in as little time as possible.

Dedicated technical team

Customer service via email and telephone; we'll be there to grow your business.

Sandbox environment

Validate your integration with our test environment before moving into production.

Full Flexible API

Once you have your test account, you can review all the PayRetailers solutions and decide which integration best suits your site.

1

**Paywall
integration**

An all-in-one solution that provides a filtered payment method listing, grouped by payment. method channel, that is always up-to-date.

2

**Dynamic
Method
Calling**

For integrations which require a more custom-coded approach, the GET Payment Methods API call provides a list of all available payment methods in JSON format, along with their preferred

3

**Direct
Integration**

Direct Integration provides the payment method codes directly to the merchant, who can integrate them as they see fit.

4

**Mixed
Integration**

Integrate both: a paywall and a direct integration.

Standard checkout

- ✓ Localized: 250+ local payment methods
- ✓ Dynamic: price in local currency
- ✓ Interface with multiple languages
- ✓ Adaptable to all devices
- ✓ Secure domain (https)
- ✓ Security certificates
- ✓ Customized payment options
- ✓ Integrates with your existing customer experience

Security at PayRetailers

Feel safe - we perform multiple checks on all transactions

Our in-house risk management team monitors and reviews high-risk transactions to ensure that only legitimate payments go through, and to reduce fraud.

Risk & Fraud Management System

Get analytics for your business with customizable reports that fit your needs, and chargeback tracking. Pick any parameter you want to measure or track and receive real-time reports to grow your conversions.

Secure Payment Gateway

Your customers' data will always be protected by the most reliable payment security technologies, including EMV, PCI-validated P2PE, and tokenization.

Best-in-class Security Tools

Create rules that match your business model, such as blocking specific BIN ranges, triggering 3D Secure, or limiting high-value transactions.

In-House Machine Learning Risk Engine

PayRetailers uses sophisticated fraud decisioning models, numerous data sources, and our proprietary rules engine to identify high-risk transactions.
