

# Pueblo Apicola

Selected Honey from producers of Uruguay

## *The Company*

Located North of the wider river of South America "The River Plate" it developed Pueblo Apicola.

We are a Cooperative Company owned by Beekeepers families, with a Global spirit to provide quality selected and certificated honey from our bees to the World.

Pueblo Apicola produce with the character and dedication direct from the small producer located in Uruguay. The high level of knowledge and professionalism of the Beekeepers of the Company has made it obtain multiple international seals. We harvest every season Organic and Conventional Honey + FLO-FAIRTRADE.

*Beehives located in North Uruguay.*

*Apiaries on the North of the River Plate*

The name ***Pueblo Apicola*** it means - ***Beekeepers Village*** – and the original idea comes from a beekeeping pioneer lady, Miriam R. Caraballo. Her work inspired and meeting another producers to found one network of beekeepers from villages to remote areas of Uruguay.

In the beginning the Cooperative developed in the north of the country, and 10 Years later Pueblo Apicola is a stronger national Company, with beehives around the all Uruguay.

*Montevideo Port – prepare to Shipment.*

## Known Source – Traceability Honey Data

We provide the Identity of each drum of Honey, this is essential to guarantee the food safety and the Knowledge from the beehive to the Bulk.

## Harvest Time

The Harvest begin in *October and End in July*, we stay all the time with a permanent Stock ready to export.

We have two different Crops, the spring Harvest the Polyfloral Honey, from October to January, and the autumn Harvest from February to July.

*Organic Warehouse in Tierras Coloradas – Uruguay.*

## Organic Products

We produce organic Honey, Wax, Propolis, Pollen, Vinager and Wine under certification NOP for EEUU and CE n°834/2007 + CE n° 889/2008 for the European Union, we are certified for production procesing and /or commercialization of organic products by *IFOAM, SOIL and NOP accredited certification agencies.*

## Fair Trade - The response for the social development against poverty.

We produce Honey and another Beeproducts Fairtrade + Organic. Every Year Pueblo Apicola produce and suport with the costumer a better condition of life for many small producer, in exchange of a better Quality of Honey, because the Control of Fair Trade mens more Quality and more Control on the Work of the Beekeepers.
