RISE AND GLOW

Summary

Proudly made in South Africa. We curate natural skincare products and home fragrance. While our competitors provide complex skin care products, our body butters, for example, are made of natural ingredients and are limited to 5 ingredients in each jar of goodness. Our body butter's are rich and absorb into the skin easily without leaving a greasy feeling and that sets us apart.

We have grown our product offering to Body Lotions, Hand & Body Wash, Bath Salts and Soap Bars that contain no harsh chemicals as well as Diffusers and Room Spritz. Someone once said that natural skincare should be expensive for its work. We come to provide natural skincare at reasonable pricing.

Our products are friends with nature. Founded by Aggreneth who has been on a quest to spread skin goodness in a pure form. We are deeply passionate about nature and everyday skincare. We strive to provide affordable quality products with no need to compromise on quality.

our products **are:**

inspired by nature
scented and unscented
no artificial preservatives
not tested on animals

Selling Price
