

PRODUCTS CATALOG

Goiás Verde Alimentos, located in the city of Luziânia, considered one of the largest Brazilian agribusiness hubs, has been in the market for over 13 years as one of the main food industries in Brazil, having a large production of finished products in the line of Vegetables and Tomato Sauce.

The industrial park is close to the areas that supply of raw material, which allows the processing of crops (tomato, sweet corn, beans) immediately after harvesting, maintaining the high standards and the natural flavor of the food.

In the last few years the company has expanded and intensified its operations through the Bonare brand, and this work has a prominence in national panels, demonstrating that the brand is recognized by the consumer.

Goiás Verde Alimentos works together with its partners, suppliers, employees and clients within the values that have been built throughout its history and that will guide future actions: Work ethically, safely, quality and with respect for people and the environment.

FOOD SERVICE LINE
