

COMPONENTES AUTOMOTIVOS

ABOUT US

We began our **trajectory in the Brazilian aftermarket of automotive parts in 2015**, realizing the opportunity to offer innovative solutions to our customers. Throughout our trajectory, we have invested heavily in equipment, technology, processes and people, achieving with mastery, through our internal and external sales team, to serve the entire Brazilian territory. Committed to our customers' satisfaction, we have a strict quality control in the automation of important processes, making sure that our products reach the main retailers in the country with H3's guaranteed quality.

Today, we are happy to share that **we are EVEN BIGGER**. In 2022, H3 expanded and thanks to the trust of our customers and partners, we renewed our stock of innovation and expanded our manufacturing park. Now, we have two units that in their totality add up to 2,000m², distributed between Headquarter and Branch. With this growth, we will serve our customers, partners, and resellers even better! We remain strong, working hard to always deliver the best, renewing our commitment to your satisfaction to light up the roads.

MISSION

H3 Componentes is a solid company that generates safety to its clients and suppliers, delivering categorical solutions to the automotive spare parts market.

VISION

To be a reference in its market and continue delivering effective solutions to its clients.

VALUES

H3 Componentes values **ethics** in the search for better results with customers, suppliers and employees. **Honesty, trust and professionalism are non-negotiable values** for a company whose goals is to be a reference in the automotive spare parts segment.

H3 7212 - Amber

New release

MARMITÃO LENSES

The Marmitão Lenses offer greater security for lighting on the road routine, innovating the truck’s design. The high quality applied to the finish used to inject the piece in a virgin material provides greater durability and safety when installing the product.

In addition to its high efficiency in its main function, which is to illuminate the trailer, the Marmitão Lens can also be applied as a brake light, blinker, reverse light and half-light. Besides its specific application in the Ford Cargo, the Marmitão Lens is also compatible with other brands of universal application.

H3 Componentes’ Marmitão Lens carries the quality and reliability of the brand, added to the proposal of innovation and technology, employed in an item with a wide A-curve market and great turnover in all the distributors in Brazil.

New release

MERCEDES LENSES

Mercedes Lenses provide greater safety for daily road lighting, enhancing the truck’s design. The high quality applied to the finishing used to infuse the piece with the original material provides greater durability and safety during the installation of the product.

Besides presenting high performance in its main function, which is to illuminate the trailer, the Mercedes Lens can also be applied as brake light, blinker, reverse light, and half-light. Besides its specific application, the Mercedes Lens is also compatible with other brands of universal application.

The Mercedes Lens from H3 Componentes carries the quality and reliability of the brand, added to the proposal of innovation and resistance, employed in an item with a wide A-curve market and high turnover in all the distributors in Brazil.
