

AWARDS AND RECOGNITION IN THE WORLD

The family

Lidio Carraro is a family-owned Brazilian winery founded by descendants of Italian immigrants, who brought in the blood, hands and heart the passion to produce the best wines.

A family devoted to the viticulture tradition for over 5 generations.

THE PURIST philosophy concept

Minimal intervention to maximize natural wine expression.

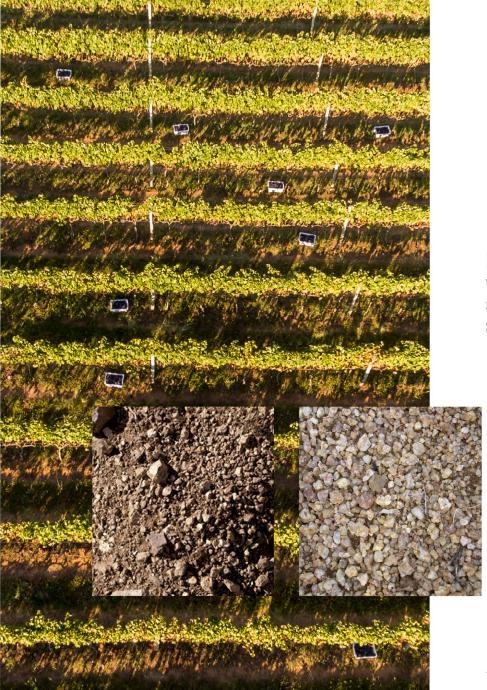

Following a unique philosophy, from grapes to wine, Lidio Carraro is focused on expressing the essence and integrity of the wine, committed to develop world-class wines, international in quality with a voluptuous Brazilian appeal. Attention to every detail makes an enormous difference in the results and allow the winery to create wines with strong personality, rich complexity, structure and balance. From this concept, it is born a proper method of wine technical management, denominated Purist Wines: the true expression and essence of the wine's terroir.

- Family-Owned Vineyards
- Low-Yield
- Hand Harvest
- Vinification by Parcels
- Unoaked

- Unfiltered*
- Gravity Flow Winemaking
- No Sugar Added
- No Finings**
- No Corrections
- *Except the ones with no malolatic fermentation
- **Only use cold technology

Geoclimatic Studies

Soil mapping, microclimates and clones

Lidio Carraro has been pioneer in putting into production an integrated vine and wine management system, which starts with meticulous studies of clones and soil mapping according to micro geoclimatic specifics.

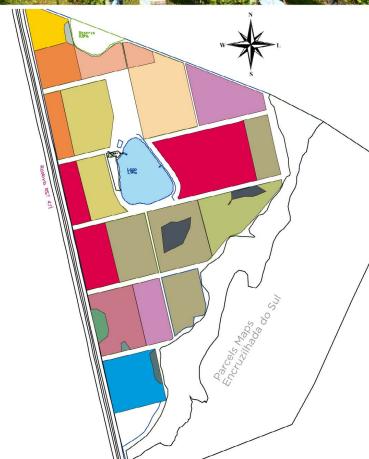

Parcel maps

Owned vineyards

Soil in both regions are of volcanic origin, excellent temperature amplitude, privileged solar exposure and excellent drainage. Soil in Vale dos Vinhedos is sandy-clay, of basaltic formation and the wine style in this region tends to be more elegant, fine and complex. On the other hand, in Encruzilhada do Sul, the soil is sandy granite, with limestone spots in some parcels and low organic content. Wines from these regions have perfect balance between old and new world styles: complexity, freshness and minerality, of great gastronomic profile and great evolution potential, complemented by power and plenty of fruit, resulting in extraordinary quality and unique style.

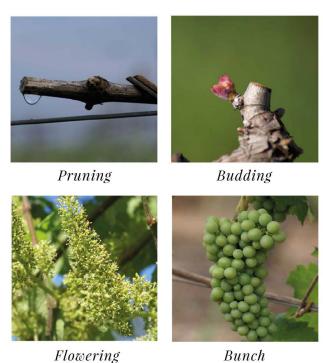

Vineyards Management

Canopy Management

Rigour and attention to every detail in the process aims to extracting all potential and vocation from the grapes in every single parcel, allowing to peculiar wines rich in complexity, structure and balance.

Hand Harvest

Balance and meticulous work

Harvesting and meticulous management are applied in the vineyards manually with the aim of gaining balance and perfectly healthy grapes. Mr. Lidio Carraro himself takes care of it, alongside his team, to ensure the grapes are perfectly ripe and healthy.

MINIMAL INTERVENTION TO MAXIMIZE THE NATURAL WINE EXPRESSION

Grande Vindima

VALLE DEL MAULE, CHILE

"The Carraros are real pioneers in Brazilian viticulture, they go to new terroir and offer red wines free from wood, wonderful proof of quality of their country" (...) "... by its wine production technology minimally innovative. They bring the light to the facts"

Srankfurter Allgemeine

"(...) the most important characteristic in making its wines, is not using wood, with the intention to reveal the fruit purity. I consider this very commendable – and was really tasting revealing".

Jancis Robinson, Purple Pages

"My favourite winery of Brazil".

"I cannot hide the fact that this winery, now its fifth generation is my favourite. It wishes to preserve the authenticity of variety and terroir and never uses oak, preferring that the wine speaks of the soil, not what it is aged in."

Steven Spurrier, Decanter Magazine

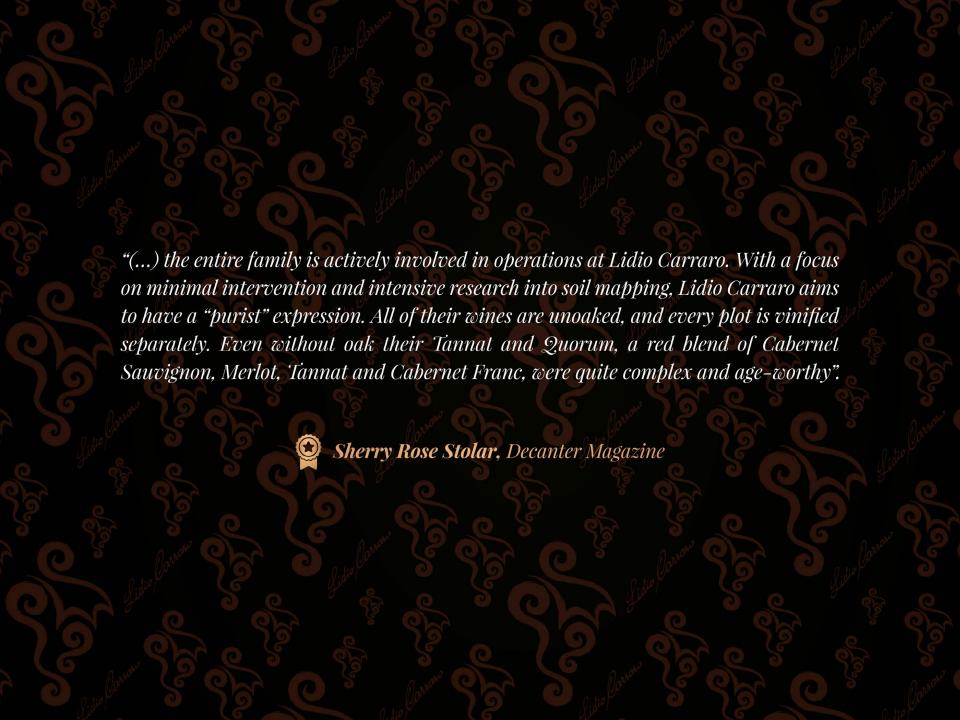

"If you enjoy visiting small boutique wineries where you are invited to taste wine in the family home, then Lidio Carraro Winery in the Serra Gaucha wine region of Brazil is for you. Ever better is the fact that Lidio Carraro is the Brazilian leader in producing natural wines, based on their purist philosophy of winemaking with no additives, no filtration and not even any wood on red wines! The result is fresh and delicious wines with distinctive personality."
