

Full Packing del Caribe

100% Biodegradable

Full Packing del Caribe

18

About us:

We are a company with international projection and world quality, dedicated to manufacture of Biodegradable (Eco-friendly) Greaseproof Paper developed from a patented raw material with FDA approval.

Supplying mainly distributors, restaurants and fast-food chains, as well as the industrial sector in general that seeks value-added solutions for the presentation of its final product and its packaging.

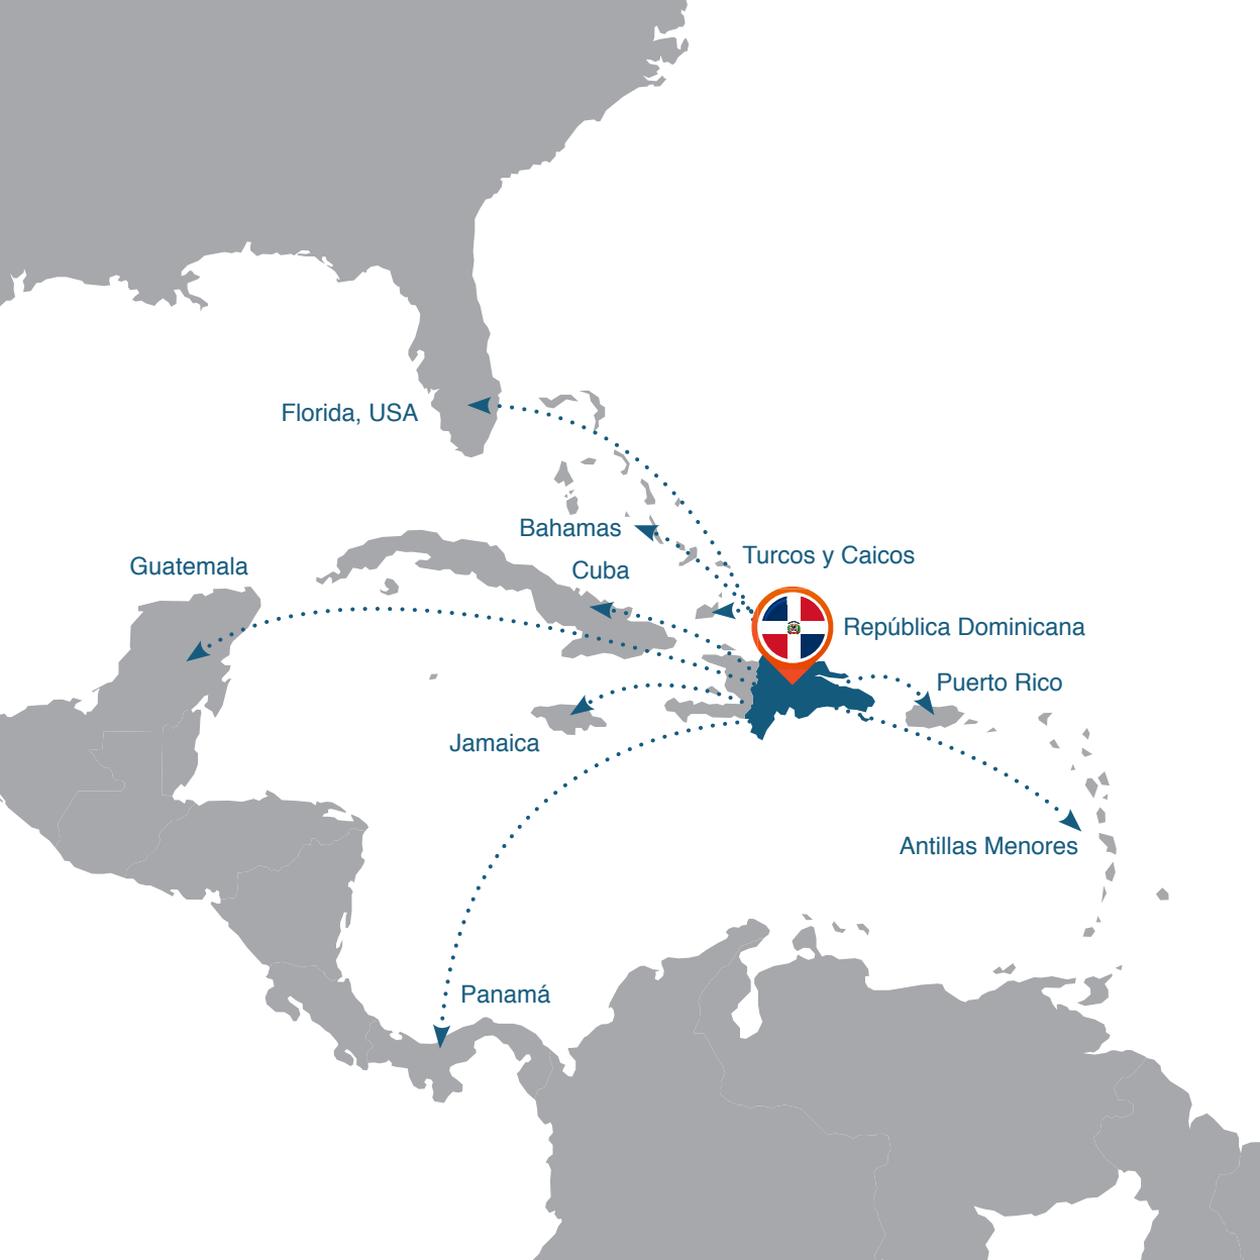

Full Packing del Caribe is the first plant in the Caribbean Region dedicated to the production of a 100% biodegradable material that helps preserve our environment.

We're born as an idea to meet the high needs of the use of paper for food industry, but at the same time, of an eco-friendly and biodegradable alternative so that it's not only a sustainable business, but also a viable one.

About the product:

Our product is marketed in different presentations nationally and internationally under the BEEO brand, with the option of personalized printing.

The greatest advantage is its low environmental impact, it biodegrades in a period of 18 to 24 months, within aerobic or anaerobic conditions.

Florida, USA

Guatemala
