

MAMMOLITI

COMPANY PROFILE

2026

Where Water Becomes Inspiration

It all Begins with the Past

Every great evolution is rooted in strong foundations. The rampant lion embodies determination, the courage to venture into new territories, and the vision to always look beyond.

Today, that same spirit continues to inspire us, blending experience, innovation, and a refined design culture to create solutions capable of anticipating the evolving needs of contemporary living.

Innovation is not about leaving the past behind. It is about drawing from it and giving it new meaning.

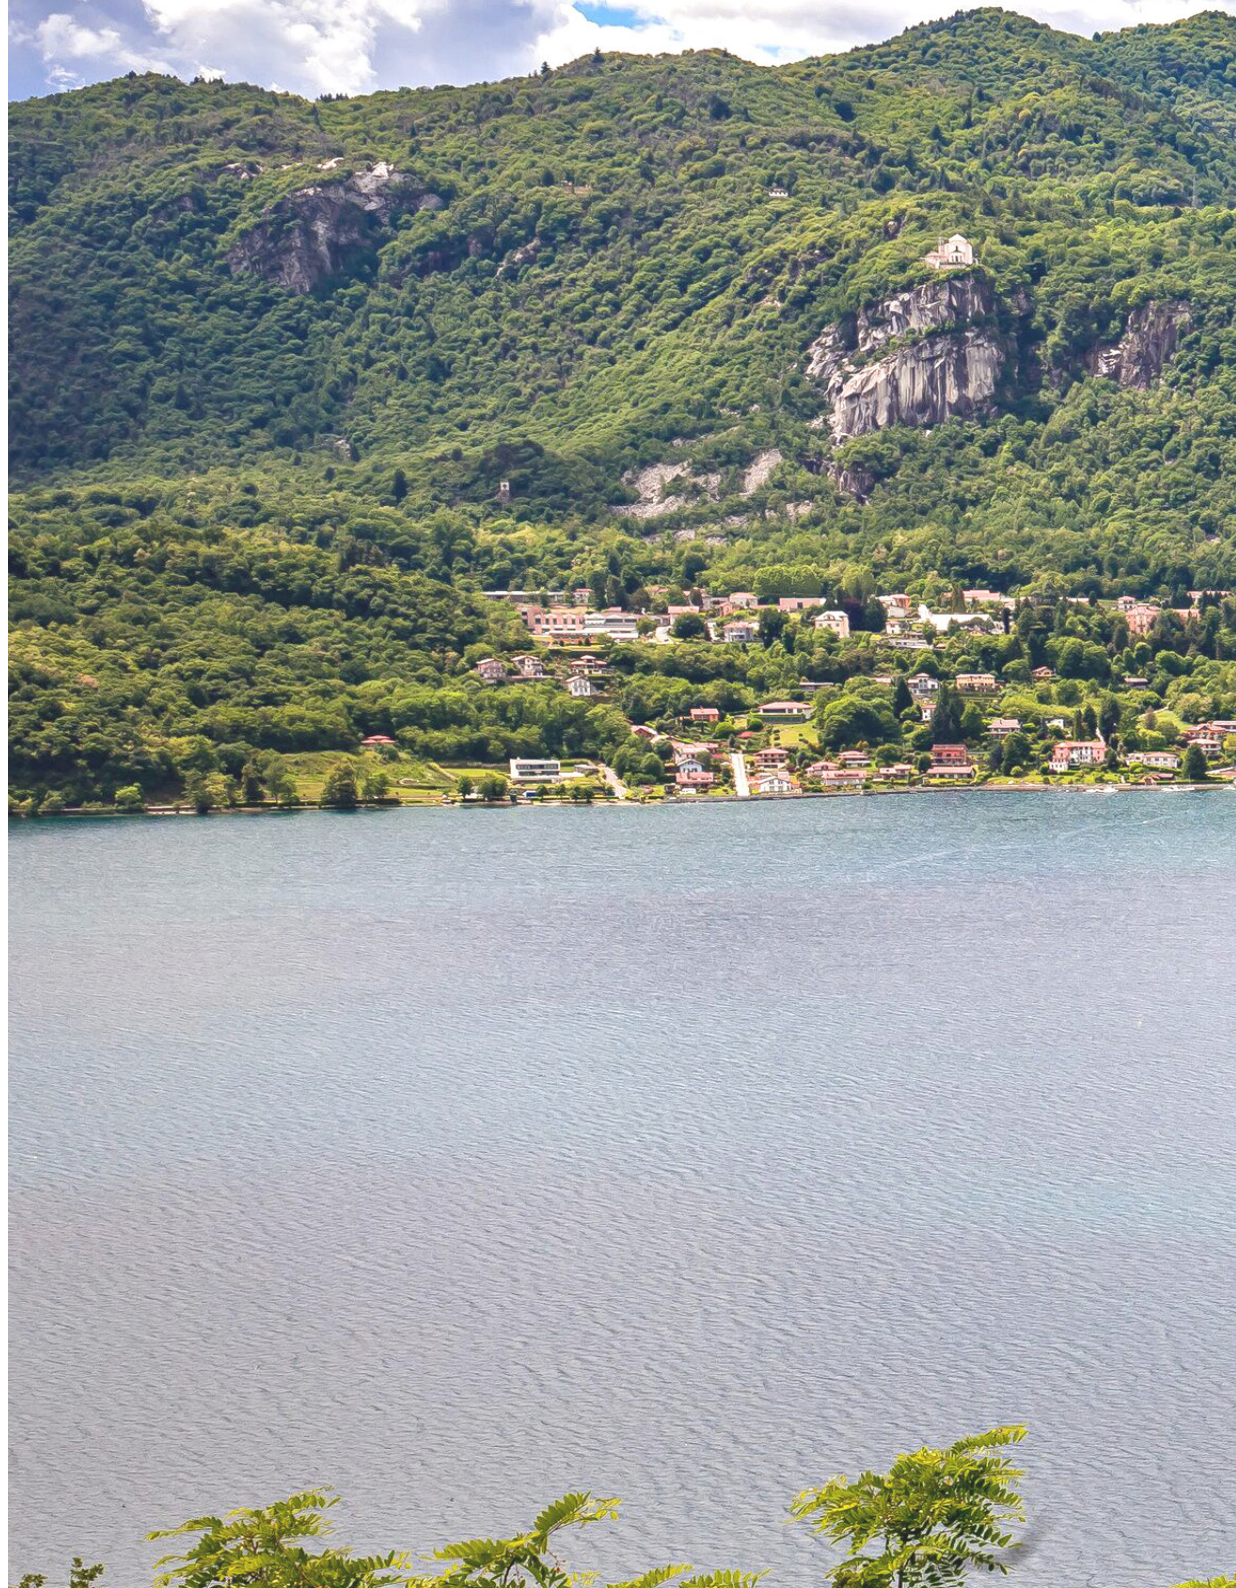

Where water becomes inspiration

Every land leaves its imprint on those who inhabit it.

Ours is a land shaped by water - From the mountains of Piedmont to the Aosta Valley, water has shaped the landscape for centuries - flowing from glaciers into lakes, descending through valleys, and tracing its path through streams.

Here, our connection with water began.
A timeless presence that designs landscape, reveal power, purity and balance of nature.

From this profound connection comes Marco Mammoliti:
a company that transforms the essence of its territory into every creation, allowing refined aesthetics, advanced technology, and intelligent functionality to coexist in perfect harmony.

The Company Structure

Our presence across different areas is built around a single purpose: bring our expertise closer to our customers and to turn our global presence into greater efficiency and value.

Aosta

The place where our story began, preserving the heritage and values that remain at the heart of our identity.

Fontaneto d'Agogna

Our operational heart, located in Italy's leading districts for the sanitary tapware industry.

Biandrate

A dedicated logistics hub and showroom created to combine efficiency, speed, and reliable service, supporting the needs of customers across international markets.

Taizhou (CN)

Our Chinese Joint Venture is a strategic hub for coordinating our industrial and commercial activities, extending our capabilities while strengthening our ability to operate efficiently on a global scale.

FOUR LOCATIONS.

One identity.

Experience. Innovation. Value.

FONTANETO D'AGOGNA - Head Office

Our Hubs

Aosta - Headquarter

Biandrate - Showroom & Logistics hub

Taizhou - Joint Venture

“Innovation
begins with
perseverance,
is nurtured by
experience, and
comes to life
every day.”

An Ever-Evolving Story

Our Origins

01 Marco Mammoliti was founded in Aosta
1985

New Operations Center

03 Fontaneto d'Agogna becomes the operational center.
1997

02 Opening of the Gozzano production facility
1992

04 Manufacturing expansion in Portugal and China.
1999

Every milestone Marks a New Chapter in Our Journey.

Since 1985, we have been creating bathroom solutions combining **quality, functionality** and **design**.

Our story began with **tap-ware**. Over the years, Marco Mammoliti have progressively expanded its expertise and offering, evolving into a complete bathroom range.

Today, we continue to invest in **innovation** and **sustainability**, while preserving the values that have guided our journey from the very beginning.

The Complete Bathroom Experience

07 Introduction of Sanitary Ware and Shower Trays
2018

Product range expands

05 Expansion into shower solutions
2008

08 Taizhou, China Joint Venture Established
2025

06 Showroom and Logistics relocate to Biandrate
2015

Our Numbers

Every figure reflects our ability to translate innovation, quality, and organisational excellence into measurable results.

1.100.000

Tapware

170.000

Shower Enclosures

10.000

Shower Cabins

300.000

Shower Kits & Columns

80.000

Shower Trays

160.000

Sanitary Wares

4

Facilities

40+

Years of Experience

Our Strengths

Our company excels at translating **customers' needs** into concrete solutions through flexibility, innovation, and operational speed.

Flexibility

- Operational Broad product range
- Solutions positioned across all price segments
- Tailored solutions developed according to customer specifications

Innovation

- Product design & development
- Advanced materials research
- More than **100** patents filed

Responsiveness

- 1 week from model approval to 3D prototype
- 40 days to a fully functional sample
- 90 days to first delivery

Operational **flexibility**, **innovation**, and **responsiveness** enable us to deliver competitive products and tailored solutions - combining speed, precision, and consistent quality.

The Value of Service

A product's value is not only measured by its features, but also by the **quality of the service** that stands behind it.

Technical Expertise

20 specialists.
One dedicated team.

- Product Design
- Prototype Development & Validation
- Quality control and laboratory testing

Personalised Customer Support

Dedicated support without intermediaries

- In-house multilingual call centre
- Dedicated technical consultancy
- Fast & personalised assistance

Logistics Structure

Availability you can rely on

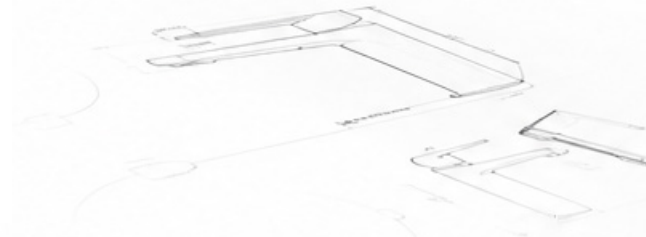

- 30,000 m² logistics warehouse
- Products and spare parts readily available
- Spare parts delivered within 7 days

From Concept to Creation: How products comes to life

Every collection is the result of a carefully crafted process combining **analysis, creativity, technical expertise**, and rigorous quality control work in harmony.

From concept to market, every detail is uncompromising considered, refined, and perfected.

Ensuring Quality

Export

We identify new opportunities by listening and observing forces shaping the markets.

Turning ideas into distinctive designs uniting originality, functionality, and elegance.

Engineering technical solutions, refining and optimising each component.

Rigorous testing for performance, durability, and safety

Industrialising and manufacturing through advanced technologies and processes.

Verified quality, with spare parts available throughout the entire product lifecycle

Delivering to customers worldwide via a reliable and efficient service.

Innovation with Purpose

Innovation means looking forward - while taking care of what matters most. Our approach to manufacturing is guided by a commitment to reduce environmental impact, improve product efficiency, and create lasting value for people and the planet.

WATER

Using less.
Living better.

COLD START

Central opening position delivers cold water only, helping reduce unnecessary energy consumption.

ECO AERATORS

By mixing air with water, aerators maintain a full, comfortable flow while reducing water consumption.

MADE TO LAST

Long-lasting products with easily accessible spare parts that support maintenance, repair and extend product life.

MATERIALS

Designed to last.

LOW-LEAD BRASS

Brass alloys with reduced lead content, selected with the aim of preserving water quality.

RECYCLABLE MATERIALS

Stainless steel and selected materials supporting a better responsible approach to production.

PACKAGING

Less plastic.
A better future.

PLASTIC-FREE PACKAGING

Single-use plastic is removed from packaging, replaced by paper-based solutions.

FSC®-CERTIFIED CARDBOARD

Packaging made with cardboard sourced from responsibly managed forests.

“Sustainability is not an extra. It is an integral part of our **design** philosophy”

Quality & Certifications

Quality is the result of a proven and consistent approach.

Mammoliti designs and develops its products to the highest **technical standards**.

Where certification is required, compliance with the regulatory requirements applicable to the destination market is thoroughly verified.

Recognized in major international markets.

Applicable Standards

- EN 200
- EN 817
- EN 997
- EN 1111
- EN 1112
- EN 1113
- EN 14428
- EN 14527
- EN 14528
- EN 14688

Material **inspections**, functional **testing**, and certified production processes enable us to deliver reliable, safe, and compliant solutions that meet the requirements of leading international markets.

Our **certifications** provide tangible confirmation of this ongoing commitment to excellence, innovation, and consistent quality.

The Markets

For **over 40 years**, our bathroom solutions have reached markets around the world.

A comprehensive product portfolio, flexible manufacturing capabilities, and a customer-focused organisation, enable us to work alongside distributors and partners, delivering reliable and customisable products tailored to specific requirements of each market.

Europe

Our primary market.

North America

A growing presence.

Middle East

Strong relationships and strategic partnerships.

Asia-Pacific

Expanding opportunities in high-growth markets.

Our Collections

Coordinated solutions for every bathroom space, designed to create a cohesive aesthetic while combining quality, versatility, and freedom of design.

TAPWARE

A complete range of mixers, shower columns, shower heads and coordinated solutions for washbasins, bidets, bathtubs, showers and kitchens, designed to combine elegant design, reliability and functionality.

SHOWER

Shower enclosures, multifunction cabins, and shower trays conceived to enhance everyday comfort through practical, versatile solutions designed for every space.

SANITARY WARE

Toilets, washbasins, and ceramic elements that bring the bathroom together through a coherent design language, carefully selected materials, and freedom of configuration.
