

ABOUT US

Dayasa Group N.V. based in Suriname provides engineering and management services for sustainable energy solutions. Partnering with Radiant Utama Interinsco TBK (RUIS) from Indonesia, which specializes in advanced Non-Destructive Testing (NDT) for the Oil and Gas industry. Established in the 1970s, RUIS is recognized for its skilled personnel and holds multiple ISO certifications. Our collaboration ensures the delivery of advanced testing techniques and high-quality services, addressing the critical needs of the industry with precision and reliability. This partnership embodies our shared vision of driving innovation and achieving excellence in the energy sector.

MISSION

To deliver high-quality, sustainable energy solutions and advanced testing techniques for the Oil and Gas industry, ensuring precision, reliability, and excellence in every project.

VISION

We aspire to lead in sustainable energy and Non-Destructive Testing services, driving innovation and excellence while contributing to a safer and more environmentally responsible industry.
