Safety:

0 incidents in 5 years

Location:

MEXICO CITY AND CENTER REGION/ GULF REGION.

Geographical scope:

National scope

Certifications:

DUNS 812803147

We Connect Intl 201800072

Key clients sectors:

OIL&GAS, PETROCHEMICAL, FOOD AND BEVERAGE

Fluidtech Systems, a company of professionals, in engineering solutions that serves industries by delivering services and product solutions focusing on increasing, efficiency, productivity, safety and sustainability. That's why we like to say: "**Fluidtech Systems, where industry succeeds and goals are accomplished.**"

Fluidtech Systems has **strategic alliances** with nonprofit organizations, educational institutions, and manufacturers from around the world. Fluidtech Systems serves major and diverse companies, some of them are national and other worldwide companies:

MRO: Fluidtech Systems is one key supplier of world wide Oil& Gas contactor in all its installations in Mexico. **Providing hoses, valves, inserts, uniforms, and many others materials for key daily operations.**

Sustainable electricity: We embrace the industrial transition into renewable and clean sources for electricity conceived **limiting fixed and marginal costs, reducing carbon footprint and creating resilience;** through performance contracts we assure the success of both parties. Our partners to deliver the solution are **Siemens, MANN and IBM**

Modular Infrastructure : Innovative building design solutions and manufacturing systems that transform the speed, efficiency and quality of the construction industry. During COVID 19 we provide MEDICAL and housing infrastructure for health care professionals in TIJUANA, MEXICO.

MRO: We helped petrochemical company with **economic savings and efficiency** in their plant that produces salt, selecting the hoses, fittings, valves, and automatization products for handling brine, in the processes of manufacturing, packaging, and logistics (ferro tanks).

Safety Uniforms: FTS provide the OIL&GAS and Food & Beverage industry with **NOMEX DUPONT and Tyvek DUPONT OVERALLS** for their everyday operations and during COVID 19 pandemic operations with more than 10,000 pieces
