PERSONAL BACKGROUND

Sean Tatham serves as the Director and Lead Consultant of ST5 Solutions Ltd., overseeing the company's strategic direction, operations, and client engagements.

With a master's degree in management information systems and a bachelor's degree in computer science, Sean consistently delivered as Business Systems Analyst for projects across multiple jurisdictions, including the United Arab Emirates (UAE), the Bahamas, Saudi Arabia, Tajikistan, Guyana, Turks & Caicos, Jamaica, and the Cayman Islands.

CAREER HIGHLIGHTS

His expertise includes:

- Technical documentation, software configuration and integration of customs and National Targeting Centre systems
- Data and process analysis focusing on border risk management and Single Window for trade and customs modernization
- Capacity building through training and mentoring in risk management and border security

As the sole Director, Sean is responsible for:

- Business development and client acquisition
- Project execution and service delivery
- Subcontractor engagement

With technical knowledge, proven consulting track record, and an existing network of experts to contribute as needed, Sean is well-positioned to grow ST5 Solutions Ltd. into a premier consulting firm in border management, customs and trade solutions.
