Empacado con Doble Capa de Cartón.

Modernity and refinement
in perfect balance.

*La modernidad y refinamiento
en perfecto equilibrio.*

The São João Classic water filter is equipped with **Sterilizing Ceramic Cartridge** (filtering element) providing an effective filtering against microorganisms, reducing tastes, odors, chlorine and impurities present in the water without any chemical addition, allied to a water level regulating float valve, which doubles the capacity of the filter and also eliminates leakage into the lower reservoir.

The whole tradition of over **65 years** of **Cerâmica Stéfani** is in the traits and in the technology applied on the filter São João Classic.

El filtro de agua São João Classic está equipado con Vela Cerâmica Esterilizante (elemento filtrante) proporcionando una filtración eficaz contra microorganismos, reduciendo el sabor, olor, cloro y las impurezas en el agua sin ninguna adición química que, aliado al flotador regulador del nivel de agua, dobla la capacidad del filtro y evita que el agua del reservorio inferior se derrame.

Toda la tradición de más de 65 años de Cerâmica Stéfani está en las características y en la tecnología aplicada al filtro São João Classic.
