

# CATÁLOGO

# Team / Equipo

IMEX FUTURA is a company founded in 2002. We started growing and selling grains in the local market; actually Imex Futura SAC is a processor, germinator, packing and exporter of grains, we have partnerships with farmers, and a team of high level engineers in food industries. We export bulk products, retail products, private label and INCA TRAIL brand.

Imex Futura SAC es una empresa fundada en el 2002, empezamos sembrando y vendiendo en el mercado local, para luego en el 2010 convertirnos en una Procesadora, germinadora, empacadora y exportadora de granos, contamos con alianzas con agricultores, y un equipo de ingenieros de alto nivel en industrias alimentarias. Imex exporta a granel, productos para el mercado tanto marca privada como blanca.

# Natural Cuisine and Sprouted Products / Cocina Natural y Productos con Brotes

Our cuisine is very jealous and surrounds it self with quality, selection and spirituality.

## **ORGANIC AND CONVENTIONAL SPROUTED QUINOA**

Sprouted grains could be defined as whole grains in the transition from being seeds to becoming a new plant.

## **WHY SPROUTED QUINOA?**

It activates natural enzymes and increases the content of vitamins, folate and soluble fiber, providing all the amino acids needed to make a complete protein and, helping to ensure that the iron and zinc needs are being met.

There is an enzyme found in the sprouted grains known as amylase which breaks down starches into sugars, heightening the digestibility of these grains. It is recommended to be eaten cooked instead of raw.
