SACHA INCHI OIL 250ML

\$ 35.000

Our extra virgin Sacha Inchi oil has a superior concentration of omegas 3, 6 and 9 and alpha linoleic acid. Which have a powerful positive impact on our health, helping us to prevent chronic non-communicable diseases and to beautify ourselves from the inside out. Consume it as a dressing or directly (without subjecting it to heat).

SACHA INCHI COOKIES 60 GR

\$ 2.000 UND /\$5.000 3 UND

¿Did you know that Sacha Inchi has more protein than most plant sources (40%), as well as being healthier?

Yes. These low sugar cookies are also sources of "clean" protein and you can consume it at any time of the day, if you are exercising or are diabetic you will love this healthy snack.

SACHA INCHI OIL
250ML/ BOX * 30 UND

\$ 600.000 + IVA

Our extra virgin Sacha Inchi oil has a superior concentration of omegas 3, 6 and 9 and alpha linoleic acid. Which have a powerful positive impact on our health, helping us to prevent chronic non-communicable diseases and to beautify ourselves from the inside out. Consume it as a dressing or directly (without subjecting it to heat).

BROWN SEED * KILO

\$ 7.000

This seed can be used in any industrial process in which the benefits of Sacha Inchi are required. However, it needs to be discounted, a process that is carried out using a specific industrial method, which justifies its economic value..

**PEELED SACHA INCHI WALNUT
AND VACUUM PACKAGED * KILO**

\$ 20.000

This seed is ready to work in industrial processes. It has all the benefits of omega and vegetable protein in higher concentrations, approximately 49% omega 3 and 40% protein. It is ideal for making vegetable meats, sausages, protein shakes, flours with protein value, among others.

OBSERVATION: to be consumed directly it needs to be washed and toasted.

**PURE SACHA INCHI FLOUR
VACUUM PACKAGED * KILO**

\$ 35.000

This flour is completely pure, after treating and grinding it. It is ready to make any type of product, in addition it does not need any additional procedure to be used in bakery and pastry processes. You can make a large number of derived products with this raw material, you only need to mix and prepare..

SACHA INCHI OIL IN BULK * 20 LITROS

\$ 1'000.000

You can count on one of the finest oils in the world within the ingredients of your products or recipes. This oil is ready for human consumption (it is recommended to consume raw as a dressing or directly); You can also use it in cosmetology processes for soaps, creams, like body oil, among others, giving it an incredible added value.

AS A COSMETIC: The omegas are absorbed by the skin, hydrating it and leaving it radiant, this oil has the highest concentration of omega 3 on the market (49% / 7 g per serving), giving it the extra that your products need with just a little amount.

AS A CULINARY INGREDIENT: Omega 3 has innumerable benefits in the prevention of chronic non-communicable diseases, such as: neurodegenerative and cardiovascular diseases, triglycerides, cholesterol; helps cell regeneration, improves the immune system, is a natural anti-inflammatory among others; also its flavor is very fine.
