RISING WOMEN SS21

#bikiniswithpurpose

About Maracao

Maracao is my own vision of swimwear for the modern woman, free and adventurous inspired by the lifestyle of the traveler and the dreamer. A girl who likes to keep busy and push life to its limits encompassing exotic destinations, health, fitness and mixed cultures. I am in love with the Maracao customer, she's smart, creative and comfortable in all aspects of her being because we are incredibly sexy/beautiful when we are most confident. And I believe that women is also me.

I am committed to empowering women in their active life through anything from swimming, tanning, surfing, enjoying a cruise or simply looking beautiful on the beach. Giving the best experience and support by blending fashion and function in styles you can wear anytime, anywhere.

We have achieved this by offering countless options of versatile cuts by working each pattern myself until fitting them perfectly not only to the woman's body but their personality. Meticulously re-engineering the basic bikini by mixing fashion forward trends with classics striking a rich balance between effortless elegance and flattering comfort. (From itsy cheeky bikinis to the full american cut, bras, triangles, one pieces and much more)

Each bikini is seamless and confectioned with the highest quality standards and materials. Our dreamlike fabrics are no-hassle care offer UV protection so no matter where life takes you, I promise our swimwear will never disappoint you. Each of our tropical motif prints are created exclusively for the brand celebrating the exotic nature found in my country, Costa Rica. Inspired by the textures and bold colors in palms, orchids, birds of paradise and much more. Our printed fabrics are matched with solid colors turning them in reversible pieces designed to easily Mix & Match for one of a kind styles and self-expression.

So even if our customer takes her best friend shopping, they won't come out looking alike.

My mission is to help women feel free, comfortable, and most of all confident about themselves committed to show sophistication, style and femininity by creating unique and ethically made quality garments crafted individually by talented Costa Rican artisans with a high social commitment creating a culture where entrepreneurs, artists, artisans and aspiring optimist unite in support of one another.

Thank you for being a part of our big dream and supporting small business,

With Gratitude,

Xoxo - *Andrea Baltodano*

#BikinisWithPurpose

Maracao an exclusive line of swimwear, resort wear and accessories inspired by the textures of nature in the exotic Costa Rica and the love for traveling around the world where our inspiration becomes WEARABLE ART.

The label was born with the purpose of EMPOWERING women, from the ones who wear our designs to all the ones involved in the creation process while implementing an environmentally friendly and ethical approach.

With the purpose of rescuing and keeping traditional garment techniques alive we have innovated the use of HANDMADE macramé and crochet knitting along our local artisans by bringing into the present aesthetical elements of the past with all the strength of our culture into modern but timeless designs that tell a story and have deep-rooted identity that gives vibrancy and meaning to what we wear, how it was made and who made it.

We strive to implement ETHICAL employment practices securing fair payment and treatment of our workers most of them women who are talented and passionate about what they do. Also we use our platform to educate consumers about the problems the fashion industry is facing and to inspire them to be a part of the change.

Our MISSION is to make women feel free, comfortable, and most of all confident about themselves so every piece is envisioned on our customer always committed to the slow fashion guidelines which are efforts to move away from the excessive consumerism of trendy low quality pieces that have a huge negative impact in the world. We are excited to be part of the fashion revolution and the future to come!

‘We need to create what we see that it's missing’
