TOGETHERNESS BRING MORE WARMTH TO LIFE.

 metāvila

#### About Us:

Since 1995, Metávilas has been synonymous with innovation, quality, and tradition.

For over 30 years, we have been warming stories with solutions that transform spaces, create experiences, bring people together, and add more warmth to life.

Our history is defined by pioneering technologies and a commitment to sustainability. We are leaders in wood stoves in Brazil and Uruguay, with over 280,000 homes warmed, and we have already expanded our fire culture to several countries.

With a wide range of products, we meet the needs of all seasons. Each piece that leaves our factory carries the essence of Metávilas: efficiency, technology, and design that enhance any space.

We continue innovating, evolving, and fulfilling our purpose with love: to provide gatherings around the fire.

## **WE LIVE THE FIRE CULTURE**

We are passionate about fire. Fire is culture; it is part of human history. We see it as a means of providing comfort, warmth, and connection. We bring people together around it, whether in winter by the fire or in summer at a barbecue with friends. It is our center and motivator, the guiding force behind our decisions.

### **Metávila Wood Stoves**

Metávila is a leader and pioneer in dual combustion wood stoves in Brazil. Our stoves offer up to five times more efficiency in heat generation compared to a regular fireplace. Designed to maximize heat and minimize waste, Metávila wood stoves ensure cleaner combustion and significantly reduce pollutant emissions, leaving no smoke or odor in the environment.

In addition to their efficiency, Metávila stoves are recognized as decorative items, thanks to their modern and elegant design, which adds a touch of sophistication to your space.

Available in various sizes and models, Metávila stoves provide a more pleasant, comfortable, and cozy environment in your home. They are ideal for those seeking efficiency, savings, and environmental respect.

## Inserts

Inserts are high-performance closed fireplaces designed to be built into the wall, offering a sophisticated design that enhances any space.

With dual combustion technology, these inserts provide an incredible experience, combining high heating efficiency—five times greater than traditional fireplaces—with unique beauty. Ideal for replacing masonry fireplaces by utilizing a pre-existing niche, inserts also allow heat distribution to other rooms, making your home even cozier.

The fire in Metávila inserts creates a warm and inviting atmosphere, delivering unmatched comfort on the coldest days. Perfect for enjoying wonderful moments in the comfort of your home, Metávila inserts are the perfect combination of efficiency, design, and sophistication.

## ALL YOUR SPACES WARM AND COZY

Our inserts feature auxiliary heating outlets, allowing ducts to distribute warmth to other rooms in the house.

This means that even if the insert is installed in the living room, it can also heat bedrooms, the kitchen, and even the bathroom. This way, you ensure complete and efficient heating for your home.

Nothing compares to the experience of walking through your house and enjoying every room warm and cozy. It enhances the quality of life and well-being for the whole family.

A rustic kitchen scene featuring a black wood-burning stove with a fire inside, a copper kettle, and a built-in log storage compartment filled with firewood.

## **WE LIVE THE FIRE CULTURE**

Fire that warms. Fire that smokes. Fire that creates flavors. Fire that brings people together, fosters unity, and makes every moment more memorable. If it's Metávilas, it has fire!

### Wood cookers

Metávila was the first Brazilian company to apply dual combustion technology to wood-burning cookers. These cookers are 2-in-1, combining the advanced technology of wood stoves with the traditional charm of wood-burning cookers. With this innovation, we have raised the standards of environmental performance and energy efficiency, delivering effective and sustainable heating.

Synonymous with quality and durability, Metávila cookers turn cold days into warm memories, surrounded by irresistible flavors and a unique atmosphere.

Available with a cast iron or ceramic glass cooktop, our models come in various sizes and styles to meet your needs. Explore our catalog and discover Metávila's excellence in heating and design.

**Orbital Line**

### **Orbital Multi Functional Outdoor Grill**

The Orbital Multi Functional Outdoor Grill is a celebration of barbecue tradition, blending classic methods with modern techniques. With it, you can explore various ways of preparing meats, vegetables, and other foods.

The Orbital is a multifunctional parrilla grill: the authentic taste of barbecue on the grate, the smoking of food on the rack, and the skewer for large cuts. With the Orbital grill, every barbecue is an opportunity to experiment and share the pleasures of a great barbecue.

## Grills

Metávila grills are designed to offer unmatched performance when preparing your barbecue. Having a Metávila grill at home transforms ordinary meals into true moments of celebration for barbecue lovers.

Metávila produces a wide variety of grills, from models for authentic Brazilian-style barbecue to options for traditional American BBQ. Our grills are designed to roast all types of proteins, delivering irresistible flavor and juicy texture to the food.

In addition to meats, Metávila grills offer versatility for preparing vegetables, cheeses, and even desserts, expanding your culinary options and allowing you to explore personalized recipes. More than just a utensil, the Metávila grill is an investment in special moments and the joy of savoring food made over the heat of the coals.

## Parrilla Grills

Parrillas are part of a legacy passed down through generations, celebrating the union of fire, meat, and friendship. A legacy that turns parrillas into true works of art, designed to enhance every detail of a great barbecue.

Our love for barbecue inspires us to strive for perfection in each product, ensuring that every ember lit is a tribute to authentic flavor and the unique experience that only a parrilla can provide.

Here, barbecue is more than a tradition – it is a passion that guides us and connects us to the roots of the best things in our land.

## Fire Pits

Used since ancient times, fire pits are rustic grills that offer practicality in food preparation. In addition, they are often used as bonfires to warm up those sitting around them.

With the goal of offering a more modern version inspired by this tradition, our fire pits were born. Made of carbon steel, Metávila fire pits feature a dedicated fire area, grill for food, skewers for large cuts, and are available in two sizes.

Experience tradition with more quality and convenience!

MTA Line

## Pit Smokers

Pit smokers are smokers that cook food without direct contact with fire, using reverse flow technology to impart unique flavors and aromas, resulting in juicy meats – an essential technique of American BBQ. The MTA line ranges from domestic models to commercial ones for restaurants and events.

They stand out in the market for features such as: a sealing system that prevents smoke leakage, refractory plates in the firebox that enhance safety and durability, and a foldable smoke stack, making transportation and mobility easier.
