HONEY AND PROPOLIS

Honey is the only product that contains protein, many minerals and vitamins essential to our health, and all of these ingredients together at the same product.

The Honey produced by Apiário Sol is 100% natural, we can offer Blossoms Wild, Eucalyptus, Orange, Coffee and Grape Vine, in different types of packaging.

Green Propolis is a powerful natural antibiotic and is used more frequently in the prevention and treatment of wounds and infections of the mouth, and also stimulates cellular immunity.

Apiario Sol's hives are located in a privileged region, where the native vegetation is the Rosemary field, recognized as the best plant for the production of green Propolis in Brazil, due to its properties and substances.

Apiário Sol works with the entire range of Propolis of superior quality such as: Super Green, Green, Brown and Resyn, in addition, Apiário Sol produces and commercializes the Propolis extract and spray in the domestic market.

Apiário SOL

COFFEE SOL NASCENTE

The Fazenda Boa Vista owned by Apiário Sol and located in the south of Minas Gerais, is also a producer of Arábica Coffee, this region has a mild temperature between 18 and 20 degrees, high altitudes of up to 1,400 meters and has become one of the main producers of specialty coffees in Brazil.
