SHINE ENHANCER

Shine SILVER

SHINE ENHANCER

The line Shine was developed to finish the bath with perfection. Formulation on the basis of a silicone blend, pearl fragrance and pigments, which promote an intense and natural shine, pleasant scent and anti frizz effect. Doesn't make the fur oily and heavy! The Gold version is recommended to animals of: Caramel, Beige, Brown, Gold and Coppery Fur. The Diamond version is recommended for white, black, gray or mixed color fur.

ANTI-FRIZZ

INTENSE SHINE

PERFUMED FUR

Brushing

long fur

Brushing was developed to aid in the untangling. The formula consists in a silicone blend that provides a film on the fur surface, helping the brush to glide through the fur, consequently untangling the knots. It also hydrates, strengthens, glows, perfumes and prevents hair breakage. It doesn't leave the fur oily or heavy.

Total BLACK

Total Black Shampoo was developed specially to tonalize the black fur. Its main active component is the Black Complex, a black pigment of cosmetic grade, that attaches to the fur and brings back its black hue. This process is gradual because the pigment attaches itself to the fur during each bath.

ORIGINAL LINES

Neutralize

ODOR NEUTRALIZER

Neutralize line was developed to neutralize unpleasant odors of non-pathologic origin. Some animals are still smelly even after bathing, or present unpleasant odors just after bath, despite not having any skin pathology. Neutralize Shampoo features actives agents that regulate the oiliness and the bacterial skin flora. It's also recommended as a pre-bath in every bathing, which increases the duration of the bath's effects. For the best result possible, use the Leave-in Neutralize as well.

Deep Clear

Deep Cleaning

The formula was developed to remove excessive oiliness and residues of products that accumulate on the fur, making it heavy and dull. The residues may also stop the absorption of some actives present in the treatment lines (hydration, cauterization, etc). Also recommended for animals that shower infrequently and/or are very dirty.

Absolute Care

Cauterization and Hydration

Absolute Care line was developed to restore harmed fur and prevent future damages. Its formulation is enriched by keratin, collagen, D-Pantenol, hyaluronic acid and a THERMAL PROTECTION agent. It promotes the replenishment of the elements that compose the fur, making it healthier and full of life, besides protecting it against any possible heat damage. It's the ideal treatment for those who want fur full of shininess, softness and resilience. Use the complete line for better results
