Hi, we are **Aquarela**

With more than 14 years making dreams come true, building extraordinary experiences for our special and unique customers. We are specialists in modular playgrounds. We aim to bring fun all over the world, in a safe and quality way. We are responsible for a more sociable, cooperative and responsible society. Our playgrounds are made with durable, high-quality materials such as plastic wood and polyethylene, ensuring that they last for many years. In addition, they are designed with safety in mind, meeting all safety standards and regulations, to provide an extraordinary experience for all children.

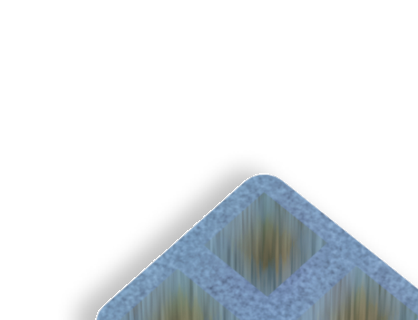

Age group

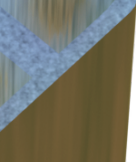

Baby Playground
01 to 06 years

Teen Playground
06 to 12 years

Baby & Teen Playground
Up to 12 years

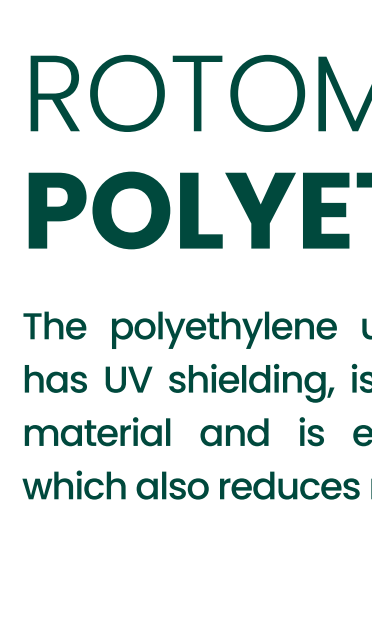

PLASTIC WOOD

Plastic wood is 100% sustainable, made from the recycling of various plastics. Its main advantage is that it is an extremely resistant material to the sun, rain and does not splinter or crack, so it is ideal for outdoor environments.

CARBON STEEL

Carbon steel pipes are used as a complement to some items to increase safety, these items undergo a process of anti-corrosion treatment and electrostatic painting.

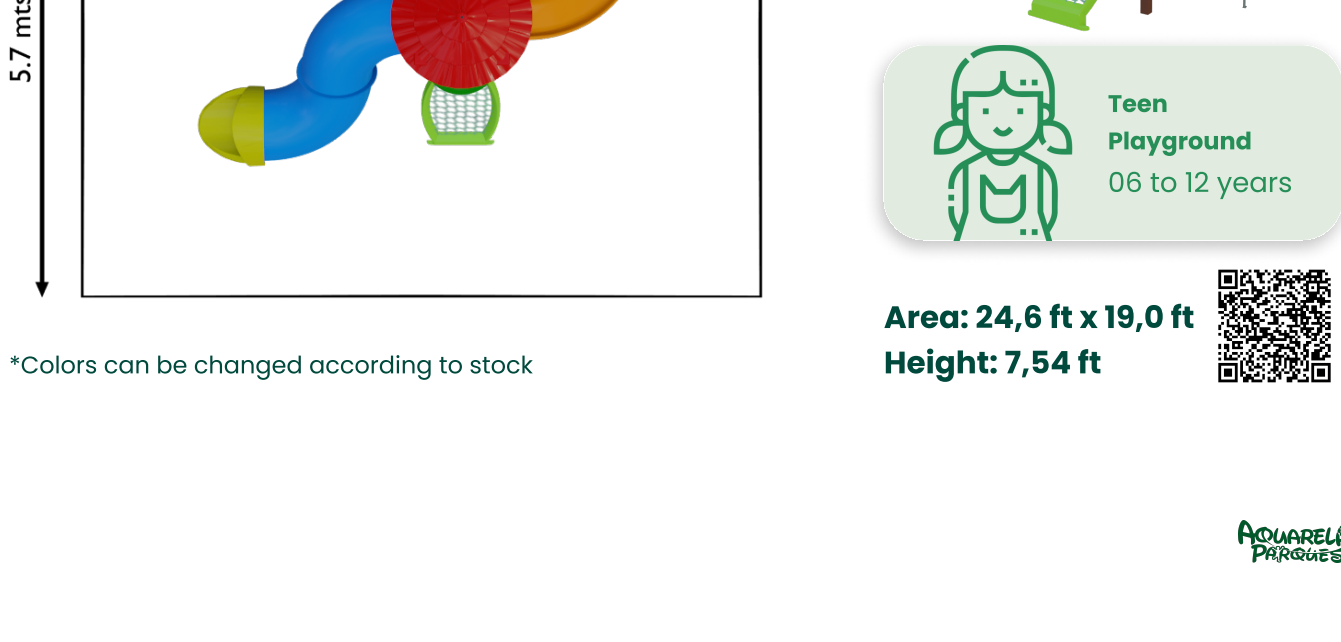

ROTOMOLDED POLYETHYLENE

The polyethylene used by Aquarela Parques has UV shielding, is a highly weather resistant material and is extremely simple to clean, which also reduces maintenance costs.
