DEVELOPMENT AND EXPANSION IN BRAZIL AND INTERNATIONALLY

Recognized nationally in the principles of Loss Prevention by creating market trends and developing innovative services, Moraes Velleda (MV) goes through a period of optimism and expansion despite the adversities that have hit the Brazilian economy in recent years.

Founded more than a decade ago by André Velleda, MV maintains a focus on the segments of the loss prevention market, while considering new possibilities. MV stands out as a consultancy focused on excellence and assertiveness in the areas of risk management and operations throughout the logistics chain, with a fundamental principle of information confidentiality, combined with technological innovations, as well as customized solutions to improve productivity.

We specially assist customers in their hard periods providing more safety and better results for all players - such as insurers, shippers, logistics operators, carriers, technology companies and risk managers.

We have our own IT staff, specialized consultants and commercial managers trained to offer the best solution, understanding all customer needs and then propose customized solutions, implementing measures for loss control and loss prevention.

For each segment, the company offers a differentiated service!

BRAZILIAN GDP HAS REDUCED 7.8% IN THE LAST 3 YEAR

MV INTERNATIONALLY

Since 2015 we are the official distributors of Taser / Axon in Brazil.

Moraes Velleda opened a subsidiary in Argentina, with offices in Buenos Aires and operations in the Port of Zarate.

In 2017, it was founded MV Risk Modeling Solutions LLC, a Project Risk Management Consulting Company in partnership with Mr. Cleber Cuzziol and Mr. Elias Assed Filho. Based in Los Angeles, CA, the objective is to take the expertise, methodology and MV systems developed by us, obtained in the prevention of losses with cargo transportation in this last decade to the U.S. and Canadian market.

The goal for 2018 is to expand operations in the US market and open offices in Mexico, Canada and United Kingdom, where we already have business agents based in London.
