MANGO

NARANJILLA

BANANA

NARANJILLA

A really unique fruit from the Andes.

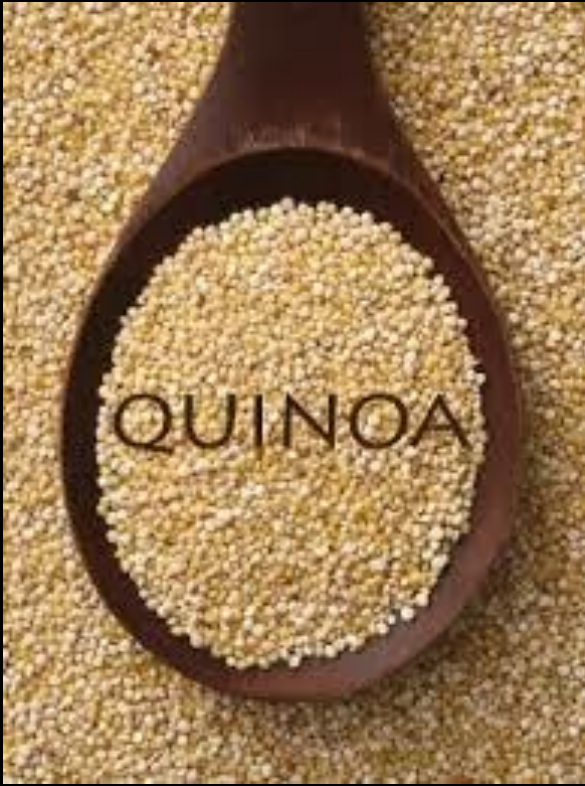

Delicious sweet and sour taste, orange flavor.

Fruits are round and yellow-orange in color, perfect for making delicious juice, gravy, milk shakes, cakes, etc.

In 1760, Mr. J. de Santa Gertrudis Siera called it "Nectar of the gods" and "the most delicious that I have tasted in the world."

This plant takes at least 6 months to bear and is quite attractive as a potted plant.

Quinoa is an ancient South American grain, highly rich and healthy, known as one of the world's most popular health foods.

It is a pseudocereal rather than a true cereal, as it is not a grass. It is grown as a grain crop primarily for its edible seeds. Generally, the seeds are cooked the same way as rice and can be used in a wide range of dishes.

Quinoa is gluten-free, high in protein and one of the few plant foods that contain all nine essential amino acids.

It is also high in fiber, magnesium, B-vitamins, iron, potassium, calcium, phosphorus, vitamin E and various beneficial antioxidants.

We are more than suppliers; we are your partners in Ecuador.
