

VAVELOGIC LIMITED

A large blue and white container ship is docked at a port. The ship is loaded with many colorful shipping containers (red, blue, white). In the foreground, several white trucks are driving on a road, with one truck in the foreground carrying a large red container. In the background, a large cargo plane is flying in the sky. The scene is set during sunset or sunrise, with a warm orange glow. The text "COMPANY PROFILE" is overlaid on a dark blue banner at the bottom of the image.

COMPANY PROFILE

Our Mission

To deliver efficient, reliable, and cost-effective logistics solutions that empower businesses to thrive in the global marketplace.

Our Vision

To be the most trusted and innovative partner in clearing and forwarding, delivering seamless, efficient, and compliant logistics solutions that empower businesses to thrive in international trade.

VAVELOGIC LIMITED is a leading provider of comprehensive logistics and supply chain solutions, specializing in Clearing and Freight Forwarding, imports/exports facilitation, Warehousing and fully integrated transport and logistics services. With years of industry expertise, we facilitate seamless global trade by ensuring efficient, reliable, and cost-effective movement of goods across borders.

Our Services

1. Custom House Brokerage

Clearing and Forwarding

We streamline the customs clearance process, ensuring compliance with international trade regulations. Our expert team handles documentation, duties, and inspections to expedite cargo release, minimizing delays and reducing costs. A successful global supply chain requires fast customs clearance and security compliance, making it crucial to partner with a logistics company with international reach, customs expertise and a strong communication network. We provide customized international shipping solutions, combining air and ocean, freight, order management, cross-border transportation and customs brokerage to create tailored supply chain solutions.

Our expertise in customs brokerage ensures a seamless experience. As your reliable customs brokerage partner, our expert team will manage your import and export activities.

Complying with local regulations and mandated procedures to avoid delays, penalties, and fines.

Reducing customs clearance time by preparing in advance for shipments arriving at destination ports. Offering advisory services on the latest trade and customs regulations to avoid unnecessary costs. Ensuring your cargo complies with relevant laws, regulations, guaranteed measures and inspection.

Seamless Clearance and Compliance.

2. Freight Forwarding

As a trusted freight forwarder, we offer **air, sea, and land freight solutions** tailored to your business needs. Our global network of partners ensures timely and secure transportation of goods worldwide.

At **Vavelogic Limited**, we seamlessly integrate global reach with local expertise to deliver consistent, high-quality end-to-end transportation services, in respect of where you operate. From procurement and consolidation through multimodal transit to last-mile delivery, our robust network and in-house teams ensure complete visibility and control over your supply chain at every stage.

Our commitment extends beyond cost-effective transit and reliable delivery timeliness, we align with your sustainability goals by optimizing routes and leveraging eco-friendly transport modes to reduce carbon emission.

Additionally, our modular value-added services such as real-time shipment tracking, customs clearance and specialized handling are tailored to your unique requirements, empowering you to unlock greater efficiency, compliance, and competitive advantage.

Expertise delivered. Reliability Guaranteed.

Special Services

I. Charter

Our global partnerships mean we can arrange charter flights to wherever your cargo needs to be and we can solve issues of capacity, oversized or heavy cargo.

I. Air and Sea

Combined air and sea service offering the combined benefits of cost effectiveness with faster lead times than ocean freight.

I. Air and Truck

Combined air and truck service to wherever cargo needs to be transported quickly to or from an inland destination.

Air Freight

Our strategic alliances with leading carriers ensure end-to-end visibility and operational flexibility, so your cargo arrives on time and in perfect condition. We have 3 packages for our customers such as

I. Express delivery (1-2 days)

It's ideal for critical shipments with guaranteed delivery within 24-48 hours.

I. Standard delivery (3-5 days)

It balances speed and cost for routine commercial cargo, offering reliable delivery in three to five days.

I. Economy (5-7 days)

It provides a cost optimized solution for less time sensitive goods, delivering within five to seven days.

Sea Freight

Vavelogic Limited delivers flexible reliable ocean freight forwarding solutions tailored to the unique demands of your business. Leveraging on an extensive global network and strategic carrier partner relationships, we design transportation plans that optimize schedules and secure competitive rates.

Our comprehensive service portfolio includes innovative load- splitting and sharing options as well as seamless integration with air freight multimodal transport, cross-boarder services and customs brokerage.

No matter the complexity of your shipping requirements, we consistently go above and beyond to ensure that your freight is handled with precision and care.

Supported by a team of seasoned industry experts stationed around the world, our ocean freight forwarding professionals bring diverse expertise and deep insights to guarantee the safe and dependable movement of your cargo. With Vavelogic Limited, you gain a commitment to excellence and a trusted partner dedicated to helping your business thrive in the international marketplace.

Road Transport

Vavelogic Limited Matches your freight with the right vehicle and route ensuring access to needed equipment and capacity with flexibility to adapt to changing conditions.

We strive to driving the transportation of your cargo from end to end with solution including; -

- Cross-border transport.
- Drop trailer pools.
- Versatile blend of asset and non-asset solutions.
- Dry Van, Less-than-truckload (LTL), refrigerated, flatbed, trailer on flatcar (TOFC).
- Short haul regional capacity.
- Diverse equipment for any kind of shipment.
- Instant spot pricing access.
- Local branches with global reach.
- Unified visibility across transportation modes.

Less-than-Truckload (LTL) Transportation Services

Vavelogic Limited enables you to save more with our Less-than-Truckload (LTL) transportation services. Managing your loads through our co-load and consolidation LTL services is an ideal way to reduce costs, improve your distribution pipeline and optimize your domestic supply chain. Drawing on our experience and insight, we will coordinate your less-than-truckload shipping challenges.

Services we provide include;-

- Cross-boarder LTL services
- Seamless account management
- Spot rates
- Invoice auditing
- Online rating
- Compressive reporting
- Expedited services available
- Customized customer portals

Railway Transport

The rail industry's advancements in efficiency, economy and sustainability can enhance your supply chain with Vavelogic Limited. Our strong relationships with rail operators and expertise in rail and intermodal freight allow us to provide effective rail-based transportation solutions, supported by comprehensive services.

Services Offered:-

- ❖ Customs clearance services
- ❖ Terminal handling charges and logistics
- ❖ Inland distribution and Inland freight services
- ❖ Final mile delivery

Consultancy services, to help you develop the most efficient, cost-effective intermodal transportation network, domestic or cross-border.

Industrial Solutions

From carrier booking to final-mile delivery, we ensure agile air Cargo Movement with the flexibility and expertise you demand.

Warehousing & Distribution

Our strategically located **warehousing facilities** provide secure storage, inventory management, and distribution services. We support **just-in-time (JIT) delivery**, order fulfillment, and cross-docking to optimize your supply chain.

At Vavelogic Limited, we recognize that each industry demands specialized storage and handling solutions. Backed by our industry-specific expertise and a global network of facilities, we deliver tailored services to meet the rigorous requirements of sectors such as:

- Cold Chain
- Temperature Control
- Perishable Commodities
- Sensitive Equipment
- Small Package Services

Container Freight Services

Almost every industry sector has some special requirements to take into consideration or could benefit from our value-added service options. We provide **FCL (Full Container Load)** and **LCL (Less than Container Load)** shipping solutions, along with container tracking and handling, ensuring smooth transit from origin to destination.

Full Container Load (FCL)

FCL loads offer cost-efficiency, reliability, and reduced CO2 emissions. Our strong carrier relationships ensure space, optimal schedules, and competitive rates. Our web-based tracking system, provides shipment visibility.

Less-than-Container Load (LCL)

Our LCL services offer flexibility, cost control, and efficient shipment times through consolidation and multi-country consolidation services (MCCS). Online tracking with us ensures shipment visibility.

Temperature-Controlled

Our reefers handle frozen to ambient cargoes, meeting the needs of food, aerospace, pharmaceutical, and technology industries. We offer special packaging, temperature data loggers, and IT solutions for live shipment visibility.

Value-Added Services

Offering a wide variety of value-added services – door deliveries customs brokerage, cargo insurance, and more – we will have the tools and solutions necessary to anticipate and meet your unique shipping needs.

Project Cargo and Non-Containerized Shipment Solutions

Our Project Cargo Team has deep experience in all modes of transport. They also draw on local hands-on expertise to handle the most complex project cargo, from concept all the way through execution.

With a focus on innovation, we integrate Kaizen principles into our core operations. Our robust global risk and incident management systems ensure service quality.
