

Eliminate the Unknown

With AI-driven Investigative Analytics Solutions

Cognyte, a global leader in investigative analytics, empowers law enforcement, national security and military intelligence agencies, and other organizations with actionable intelligence to identify, prevent and mitigate crime, terror and military threats.

Actionable Intelligence for a Safer World

We see data differently, enabling our customers to reveal connections across domains and systems to support mission-critical investigations and operations.

Hundreds of customers rely on Cognyte's investigative analytics solutions to uncover critical insights to identify, mitigate and prevent threats to national security, public safety and cyber security.

Law Enforcement

Ensuring Public Safety

National Security

Safeguarding Domestic Security

Military

Defending Sovereignty

National Intelligence

Protecting National Interests

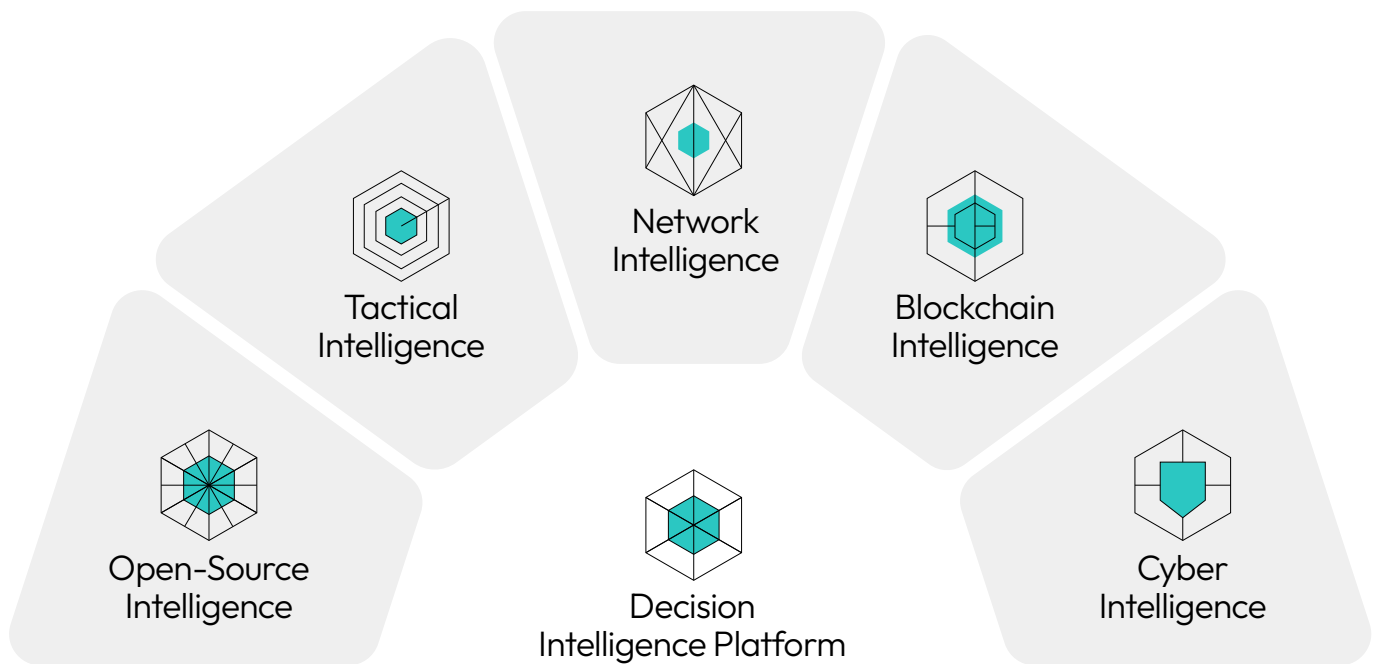

AI-Powered Solutions

Bridging the gap between the known and the unknown

Cognyte delivers innovative technology that empowers our customers to navigate an increasingly complex and fast-changing threat landscape.

With offerings that leverage artificial intelligence (AI) and advanced analytics, Cognyte helps customers make sense of complex, multi-source data to drive informed, mission-critical investigations and operations.

Cognyte Investigative Analytics Portfolio

Network Intelligence

Analyze communications network data at scale to deliver real-time and predictive insights

Blockchain Intelligence

Follow the money, expose illicit transactions and directly link between suspects and their crypto wallets

Tactical Intelligence

Conduct field missions rapidly, flexibly and with pinpoint precision, even in remote areas and rough terrain

Decision Intelligence Platform

Fuse disconnected data sources to generate a holistic intelligence view and actionable insights

Open-Source Intelligence

Analyze open data sources, including the web, social media, commercial and open databases, to detect and investigate criminal and terror threats

Cyber Intelligence

Gain end-to-end visibility across your network environment and the external threat landscape to detect, analyze and mitigate cyber threats faster

Proven Execution

30 Years Introducing Breakthrough Technologies

We have a track record of over 30 years providing analytics software. Many of our team members are veterans of the agencies we serve and today work closely with our engineers to develop state-of-the-art technology, combining deep domain expertise with technological foresight.

With customers in over 100 countries, we continuously gather meaningful feedback that informs our product roadmap, innovation pipeline and long-term strategy, to empower our customers to always stay one step ahead of evolving security threats.
